Here locally, the police and fire who have been on their same freqs for 30
years went to repeater systems.

Local police (Westmont, Oak Brook, Hinsdale) repeater output: 154.725;
input 156.015 (PL 146.2)

Nearby Clarendon Hills FD formerly on 154.25 should be getting their new
repeater activated on 153.635 output; input is 150.805 (PL 146.2).

I work for Woodridge PD, in DuPage/Will/Cook Counties. We've been on our 2
conventional repeaters since 1987. Our F1 is 856.4625 (PL 103.5); our F2 is
857.4625 (PL 103.5).

Will Sperling, Patrol/Youth Officer
Woodridge, Illinois, Police Department

Hello Will and the group! I work for WMAQ-TV as a cameraman. Years ago my scanner would be the best tool in the car. Ah how times have changed! It seems more suburbs are using Mobile Video Terminals. Are these things worth the money? It seems every department that uses them has problems with them. Are they that unreliable? I was just wondering. Jim

6. Murray Cutler W9EHQ/Thom Johnson

Yahoo group: Chicago_Scanners

From: Will Sperling
Topic: 6 Message: 6

Does Murray still work for Channel 5? I used to know him a long time ago... I think he lived in Westmont. I'm on the south side; he was on the north side near Rt. 83/Ogden Ave.

Also, I was friends with Thom Johnson, the helicopter guy. I guess he works for the RTA or another transportation entity now; I only get sporadic email from Thom now.

Hello Jim , and the Group from Don KA9QJG Hammond In. Jim a few changes you may not know. Hammond is now on 800 Mhz. Mot.Sys 2 Trunking, Whiting Bought Hammond old Radio System and Now is on 154.86 Rptr. Munster went to a Secret Freq?????
Yea Right , Munster PD 151.085 Rptr.Out
153.755 rptr.In

Also I had the Business Communications Research in Hammond Years Back, and Steven Ray from Ch 5 used to come in and Listen and get Freqs. from me were you working Then ?

Happy Scanning to All From Don

Topic: 2 Message: 9

Small, small world! I'm in Munster Yes Munster moved . They had too many problems with Lake Station on 155.13 151.185 and they use 153.98 at night as a second freq. The last I heard Steven Ray had his own production company in St Louis. He produces safety videos for fire depts I worked with him all the time. We had a bureau in Highland for a year or two. They were going to set up a microwave link so we could feed tape in from NW Indy. It never happened.
A good friend of mine sells Radar equipment to Munster and Whiting. He gets some wild trade ins.
You would think Hammond would use Calumet City as an example and stay away from the 800 band. They have more problems with radios than anyone I know. Maybe a bad satalite reciever system.
Ah well I'm glad to see some activity here on the ole list JIm

10. Trunked Chicago Police/Fire/EMS?

Yahoo group: Chicago_Scanners
Date: 1999-09-23 11:48:53 UTC
From: Argentium G. Tiger
Topic: 10 Message: 10

Hi everyone,

I'm currently in Kansas City, but will be visiting Chicago from October 8th through the 10th. I just purchased a Uniden BC245XLT portable scanner capable of tracking multiple trunked systems including EDACS.

I'm hoping someone can point me to frequency information for Chicago for Police, Fire, and EMS Services that use simplex, split frequency pairs, or trunked frequency groups including control frequency (if applicable) and talk group numbers and names. URL's to pages that contain said information are quite welcome as well. :-)

Secondly, if anyone knows where the best location is to go to enjoy one of Lou Malnetti's pizzas, or if anyone has a _better_ recommendation than that, I'd also love to get that information as well. (I was recently at a company that has an office in Deerfield, and some of the folks there kept talking about Lou's.)

Many thanks!
Argentium

15. CHFD Temporary Repeater Site

Yahoo group: Chicago_Scanners
Date: 1999-10-10 18:08:33 UTC
From: Will Sperling
Topic: 15 Message: 15

Clarendon Hills (IL) FD got their new repeater, and are testing it out on a temporary site (the FD building, on an antenna only about 35' in the air). After the "burn-in," it will be placed on top of the 135' water tower across the BNSF tracks to the north of the FD. At that time, Southwest Central Dispatch will be dispatching CHFD exclusively on that freq. They will no longer be using 154.250 (carrier squelch) once the transition is made to their new repeater freq.

Repeater out: 153.635
Repeater in: 150.805
PL: 146.2 Hz

17. Clarendon Hills (IL) FD ChangeOver WED

Yahoo group: Chicago_Scanners
Date: 1999-10-17 23:43:06 UTC
From: Will Sperling
Topic: 17 Message: 17

As earlier reported, the Clarendon Hills (IL) Fire Department has a new repeater on 153.635 MHz (input 150.805, PL 146.2). There has been a lot of testing among the firefighters, the chief, and some radio techs, in the past week. On Wednesday, 20 October 99 around 0830, radio techs will be removing the 154.250 MHz base station at their water tower, and installing the new repeater which will be interfaced with South West Central Dispatch center which is in Palos Hills, IL. SWCD handles all of CHFD and CHPD's 911 phones and dispatching.

Additional information, Clarendon Hills PD is on SWCD "net 9," which is 476.7375 MHz. The other towns on net 9 are Willowbrook and Lemont PD's.

18. Recall of Weather Radios

Yahoo group: Chicago_Scanners
Date: 1999-10-22 06:56:51 UTC
From: Will Sperling
Topic: 18 Message: 18

I received this information from another source - I thought it would be important as many of us may have these radios:

From: Roxanna L. Scott <rscott@...>
To: CPSC Subscription List <cpscinfo-l@...>
Subject: News from CPSC - Press Release and Public Calendar
Date: Wednesday, October 20, 1999 12:43 PM

For Immediate Release Contact: Kim Dulic
October 20, 1999 (301) 504-0580 Ext. 1183
Release # 00-007

CPSC, Firms Announce Recalls of Weather Radios

The following product safety recalls were conducted by firms in cooperation with the CPSC. For more information about recalls, visit CPSC's web site at http://www.cpsc.gov.

PRODUCT: Midland Weather Radios - Midland Consumer Radio Inc., of Kansas

City, Mo., is recalling 9,000 weather radios. Only model 74-200 radios that have a serial number beginning with 904 or 905 are being recalled. The model and serial numbers are found on the bottom of the unit. The digital radio measures about 7.75 inches long, 5 inches wide and 2 inches high, and is made of black plastic. "MIDLAND SAME DIGITAL WEATHER/HAZARD ALERT MONITOR" is written on the top of the radio. This radio has a specific area message encoder (SAME) to sound alerts for an entire weather service broadcast area or for up to 15 selected areas. The radio has a battery backup, antenna, built-in alarm clock, digital message display for 56 types of watches or warnings, and alert status lights for statement, watch, or warning. Electronic, hardware, mass merchandise stores and truck stops nationwide sold the radios from May 1999 through August 1999 for about $70. Other Midland weather radios are

not involved in this recall.

PROBLEM: The radio contains a programming error, which can cause the device to fail to recognize certain signals broadcast by the National Weather Service. Consumers could fail to receive some National Weather Service notices advising of a severe weather threat putting lives and property at risk.

INCIDENTS/INJURIES: None reported.

WHAT TO DO: Immediately return the recalled radio to the store where purchased to receive a new model 74-200 radio that has been programmed correctly. Consumers also can return the radio directly to Midland

Consumer Radio, 1670 North Topping Ave., Kansas City, MO 64120 for replacement. For more information, call the company toll-free at (877) 302-1904 between 8 a.m. and 4:30 p.m. CT Monday through Friday.

19. WTB: Connect Systems CD-1/CD-2 PL/DPL/DTMF Reader

Yahoo group: Chicago_Scanners
Date: 1999-11-03 04:00:13 UTC
From: Will Sperling
Topic: 19 Message: 19

If anyone has a used Connect Systems models CD-1 or CD-2 PL/DPL/DTMF reader that can be interfaced to a scanning monitor receiver that they wish to part with, please leave private email to me.

Doing a lot of mobile scanning almost necessitates the use of a reader hooked up to my Uniden BC760XLT scanner. Please state a price, condition, etc. with response.

22. February CARMA Meeting 2-5-00

Yahoo group: Chicago_Scanners
Date: 2000-02-04 17:14:51 UTC
From: Will Sperling
Topic: 22 Message: 22

The next meeting of the Chicago Area Radio Monitoring Association (CARMA) will be tomorrow, Saturday, February 5th, 2000, at Phillies Pizza Restaurant & Bar, (southwest corner) IL Rt 83 and 63rd St., Willowbrook, IL. Lunch starts @ 11:30 am, and the meeting begins promptly at 1:00 pm. Since we get the meeting room for free, everyone must order lunch. The food is excellent, and service from the restaurant staff is great!

If you have something for sale, bring it along to the meeting. If you have printed literature to pass out to the members, please make 60+ copies.

If you are interested in scanning, radio and monitoring, or any facet of communications, CARMA meetings are the place to be to find out about all facets of the above areas of interest.

It is not necessary to RSVP, just come to the meeting, and bring a friend and an appetite!

28. Cool frequency database

Yahoo group: Chicago_Scanners
Date: 2000-03-02 18:21:42 UTC
From: K. O'Rourke
Topic: 28 Message: 28

Back in 6/99, Bill Dunn posted a website address (http://www.afws.net) on the Fedcom listserver for the IFLOWS system of rain gauge monitors in the eastern / southeastern U.S. . "What does this have to do with scanning?", you might ask - I'm getting there, read on...

I did a little more digging, and found a site (http://afws.net/freq/RadFreq.ihtml) that lets you search a nationwide database of hydrologic-allocated freqs by various parameters (freq, state, lat/long, etc.), as well as a link to a US map that plots the location(s) of any or all of these freqs (selecting the "all frequencies" link shows you a printable list of all these freq allocations, along with their locations). While listening to hydrological data may not be an exciting prospect, there are also some VOICE users of these freqs. Living in suburban Chicago, I did a search of Illinois freqs from the above site, and got a surprise - the only IL user of these freqs is the Hines VA Medical Center in the near west suburbs of Chicago, and the freq. they use (411.350) is the output of their VA Police repeater (BTW, the input is 419.9375). A search of the state of Minnesota turned up a couple of VHF (soil?) conservation ("C") repeaters. Pay close attention to the "sponsor" field, as it shows the abbreviation of the agency that the freq is licensed to and/or used by.

Check it out... ya' never know what YOU might find for YOUR area...

29. State of IL 800 Mhz trunk (Cook Co.) talkgroup use notes

Yahoo group: Chicago_Scanners
Date: 2000-03-02 22:21:29 UTC
From: K. O'Rourke
Topic: 29 Message: 29

Monitored a small group of "Young" units (IL Dept. of Revenue Investigators, according to my records) on AFS talkgroup 09-043 with an investigation re: cigarette tax stamps today. One unit was trying to get a hold of another, and a third unit said that he believed that the unit the first person was trying to contact was on "channel 6, and not channel 2". Others have monitoring "HV" on 09-043 in the past ID'ing it as "channel 2".

30. Factual Encounter With the Latest Virus **Please Read**

Yahoo group: Chicago_Scanners
Date: 2000-03-04 03:59:39 UTC
From: Will Sperling
Topic: 30 Message: 30

I had the unfortunate experience to have a virus attack my computer, and its operating system.
This was very frustrating and aggravating, but luckily, my son Gregg, with his computer expertise got me up and running again. Below is the text of the email that Gregg sent out for me. If you're reading this for the 2nd time, I apologize, but it's so very pertinent, I am asking you to forward it to everyone you know, including those AOL users who may have already got bit by these virus(es).
~~~~~~
This is not a hoax. This is not something to get you to buy something.
This is an informational email to alert you of a very serious occurrence to my father's computer this morning.

My father, (Will/WA9YHX) called me on the phone Thursday evening. His Gateway G6-400 was acting very strange, including not allowing access to many programs, locking up, and not allowing the SHUTDOWN feature of Windows 95. (And otherwise being totally useless).

I immediately suspected a virus. I did not, however, know what I was dealing with at the time.

After FOUR HOURS of working on the computer, it's now completely disinfected from the following viruses (virii?):

SKA (also known as HAPPY99)
PRETTY PARK
MINE

These viruses attach themselves to various (VITAL) files in your Windows operating system. They can duplicate, regenerate, and re-transmit themselves. They can also send themselves via the Internet to anybody you normally consort with!

What might appear to be a familiar email from a friend, family member, or co-worker may be a virus duplicating itself through the user's email address book!

For more information, visit the following links through the McAfee's website:

Pretty Park
http://vil.mcafee.com/vil/vpe10175.asp

SKA (Happy 99)
http://vil.mcafee.com/vil/vpe10144.asp

Although I was unable to locate the link for the "MINE" virus on the McAfee website -- It's VERY real.
~~~~~~

Here are my findings with regard to these viruses:

WSOCK32.DLL in your "C:\WINDOWS\SYSTEM" directory is affected, causing Internet operation disruption
UNINST~1.EXE is executed upon startup (located in "C:\WINDOWS")
FILES32.VXD in your "C:\WINDOWS\SYSTEM" is executed before ANY other executable file (files with extension .EXE)
WIN.INI in your "C:\WINDOWS" directory is changed to a "READ-ONLY" file
MSDOS98.EXE is placed in the "C:\" directory, and executed upon startup.
(A Registry key, "SOFTWARE\Microsoft\Windows\CurrentVersion\Run" is created pointing to the "C:\MSDOS98.EXE" file)

A lot of this may be very cryptic to some, and it will make a lot of sense to others. In any event, heed the following advice:

If you trade lots of files via the Internet, VIRUS SCAN EARLY AND VIRUS SCAN OFTEN!

I am VERY serious about this - do NOT take this warning lightly. I am a very advanced computer user, and having only taken me four hours is a drop in the bucket compared to what it might take a beginner or intermediate user.

(Apologies to the listservs for the off-topic posting, but because it pertains to the nature by which we communicate, it is relevant!)

31. Cool public safety-related .wav files web sites

Yahoo group: Chicago_Scanners
Date: 2000-03-06 21:40:41 UTC
From: K. O'Rourke
Topic: 31 Message: 31

I tripped across a couple of web sites with alot of cool / humerous public safety-related .wav files, many are from old TV series like Adam 12, Dragnet, Emergency, Hawaii Five O, Rescue 911 - and even a few from The Simpsons and Cops!

Some great addition to any scanner listener's collection!

32. Navy Pier update

Yahoo group: Chicago_Scanners
Date: 2000-03-06 21:31:37 UTC
From: K. O'Rourke
Topic: 32 Message: 32

Worked a job at Chicago's Navy Pier last Friday, and was able to do a little monitoring on the side. Here's some misc. notes -

- 464.575 (simplex) - visually confirmed use, seemed to be in connection w/ new Shakespeare theatre.
- 469.0125 (simplex) - unk. Navy Pier ops., mention of "service center"
- 462.050 (rpt.), 467.850 (simplex) - both in use by Levy Restaurants ops, who have the catering / banquets contract for the ballroom, meeting rooms, and exhibition hall. Unknown if they are the only users of these freqs here or not.

Monitored many of the previously reported freqs for Navy Pier as still active. See Ted Moran's new website (http://hometown.aol.com/tandkmoran/myhomepage/index.html , about 1/5 of the way down, under "Metropolitan Fair and Exposition Authority") for a list of these freqs. In addition, I monitored an unknown charter/sightseeing boat's docking operations on 156.150 (a police freq!) there more than a few times last fall. BTW, the Odyssey boat has previously been heard using 154.650 (another police freq!) for it's operations.

Anyone else have anything to add to the Navy Pier list on Ted's website? This is a very busy place!

Navy Pier Is hoppin all right! The Shakespeare Theater has wireless mics too. Folks using FRS/Gmrs.also. Wireless mics in the ballroom at the east end of the pier. Speaking of wireless mics , you have the Chicago ,Shubert and Auditorium theaters. With my trusty Sony am/fm/tv sound portable ,I have heard many a free show. The best was CATS at the Chicago . The traveling PA company had 18 working wireless onstage!
Your TV stations are another area of activity. Jerry Springer,Jenny Jones are at the NBC Tower. Wireless mics/ wireless PLs (private lines)for producers and directors abound. NBC has three studios working at any given time. CBS ,ABC&Fox are only a few blocks away. Ah yes a rf hotbed east of Michagan Ave it is! JIM

37. V Tuner

Yahoo group: Chicago_Scanners
Date: 2000-03-12 05:58:07 UTC
From: K. O'Rourke
Topic: 37 Message: 37

Like to listen to music, news, etc. in the background while scanning / checking your e-mail and tired of the "same old stuff" spewing from your radio's speakers? I tripped across a neat (no, GREAT) program called "V Tuner" (http://www.vtuner.com) while surfing the web tonite. V (virtual) Tuner interfaces with Real Player, and is essentially a listing (logically organized by continent / country / favorites / format / etc.) of MANY, MANY, MANY broadcast radio, TV, internet-only, and even some web cams (found 3 traffic cams from Belfast tonite) from all over the world. They offer two products: a free-download program that contains a banner ad (you can move the ad out of frame if you wish by dragging the window toward the bottom of the screen) and many features to make it an excellent program in it's own right, and a $29.95 version with more bells and whistles and no banner ad. I use a cable modem, and have been using the free version of the program tonite to listen to broadcast radio from all corners of the world, including "August 102.3 FM", which broadcasts a very interesting mix of alternative and pop music in both English and Russian from Togilatty, Russia (you can't imagine how wierd it is to hear Stevie Wonder's "I Just Called to Say I Love You" on a Russian radio station). I'm feeding my stereo via the "line out" jack of my sound card, and "August 102.3" sounds pretty good for internet audio. Some sources are "netcast" in very muddy mono, and some are available in wonderful Real Audio G2 stereo. Give it a shot, you'll never settle for local radio again - now if I could only get this in the car :-) !
BTW, I have no ties to V Tuner or Real Audio, just thought this was way too cool and had to pass it along.....

38. Mobile antenna recommendation

Yahoo group: Chicago_Scanners
Date: 2000-03-22 00:57:49 UTC
From: Rob Dutka
Topic: 38 Message: 38

Hi everyone,

I'm new to the list. I live in Glen Ellyn and I've been scanning for several years. Nothing serious, but I enjoy it when I have the time. Usually that time is when I'm in my car. I have a Uniden 760XLT in my car and those 100 channels sure fill up quickly. My current antenna is a glass mounted version that looks like a tall cell phone antenna. I'm beginning to feel that this antenna is inadequate. So, I'm looking for a scanner antenna to mount on my car. One for the standard range of basic scanning from 25 - 1000 MHz. It can mount on the trunk lid or wherever. I'm open to all suggestions. Does anyone have any recommendations?

I have a Crown Vic squad. The more antennas the better. :)

Thanks, Rob

Here is my contribution to the frequency pool.
470.8125 Barrington PD

42. Activity on 462.7875

Yahoo group: Chicago_Scanners
Date: 2000-03-23 03:42:09 UTC
From: K. O'Rourke
Topic: 42 Message: 42

I'm hearing a repeater on 462.7875, and I'm wondering if anyone else can help me ID the user. Traffic (active during normal business hours) seems to indicate that it is used by personnel installing and maintaining computer and telephone equipment at a hospital. There have been mentions of the following: building 104, waiting for the bus (large campus w/ shuttle bus?), the "hospital side", 201 HR, and "rehab". I have done a 25-mile radius search (with my east-central DuPage county "shack" as the center) on the FCC "genmen" database web site w/o luck.

46. 462.7875 use confirmed at Loyola U. Med. Ctr. - Maywood

Yahoo group: Chicago_Scanners
Date: 2000-03-29 16:36:19 UTC
From: K. O'Rourke
Topic: 46 Message: 46

With the assistance of another CARMA listserver member (who recognized some of the locations and info I copied during monitoring as they pertained to Loyola) and the cool e-mail and phone directory on Loyola's website (http:www.lumc.edu) - where I was able to confirm that the names of the various individuals heard using the repeater are indeed Loyola employees (most in the Medical Center Information Systems department), I have been able to identify the user of the repeater I have been hearing on 462.7875 as Loyola University Medical Center in Maywood. (BTW, there are other companies / institutions that have these email/phone directories on their websites - that is how I was able to confirm some of the ISP trunked system TGs as being used by Argonne Labs.) Most of the Loyola traffic monitored does seem to pertain to telephone and computer-related operations, but it is possible that other departments may have access to the repeater as well.

BTW, I can find no record of a Loyola license on the frequency, nor can I find a license for anyone else on that frequency in that immediate area. Makes me wonder if there is any other unlicensed radio usage at Loyola.....

47. Loyola Lifestar

Yahoo group: Chicago_Scanners
Date: 2000-04-03 23:23:00 UTC
From: K. O'Rourke
Topic: 47 Message: 47

Has anyone heard Loyola Lifestar on 472.0375 (127.3 pl as of 1/99, but I don't currently have pl receive capability) in the last couple of days? It sounds as if the freq is now part of a trunked system, and it is very busy with misc. traffic during business hours. I have not heard them there since I noted the new trunked system use there, and am thinking that either they are also using the new trunked system or they have moved. Thoughts??

50. IL FCC license grants for w/e 3/25/00

Yahoo group: Chicago_Scanners
Date: 2000-04-11 00:01:10 UTC
From: K. O'Rourke
Topic: 50 Message: 50

Here are the highlights (IMHO) for the FCC license grants for the week ending 3/25/00. I have added notes in lower case where appropriate.. ---------- (according to notes I clipped from 1995 issues of the RCMA journal, CART is composed of personnel from 19 Chicago-area FDs, and responds to major emergencies, such as tornados, floods, building collapses, and various rescues including confined space, above and below ground, rope, etc. - I have e-mailed someone from the Bourbonnais FD in hopes of getting some updated info on the group. They are also licensed for HTs on 465.575, and they might be heard on fire mutual aid and fireground freqs.) COMBINED AGENCY RESPONSE TEAM (known as "CART") 1080 ARMOUR RD (address for Bourbonnais FPD) BOURBONNAIS IL 60914 Callsign: WPPY924 Service: PW-Conventional Public Safety Pool DateCode: 000321N Purpose of App: new license Eligibility: APPLICANT IS ENGAGED IN THE PROTECTION OF PUBLIC SAFETY AND PROPERTY. THIS COMMUNICATION SYSTEM WILL BE USED DURING FIELD OPERATION DURING FIRE AND OTHER EMERGENCIES IN THEIR SERVICE AREA. Below is some info on Road America (Elkhart Lake(?) WI) that was posted
to the "Scan-Wis" listserver. Thought I'd re-post it here for all the
racing fans in the group...

Subject: Re: Scan-Wis: Road America

Here is what I have...
Note that these frequencies are all pretty low power. Even the repeaters
are weak from the Plymouth area. The good news is that there isn't a
real
big intermod or skip problem out in that area.

463.425 D054 Road America Repeater
463.425 D043 Talkaround
464.525 D155 Road America Corner Net 1
461.175 D155 Road America Corner Net 2
464.375 D054 Road America Admin
464.325 D546 Road America Security
463.225 D054 Road America Safety 1 Repeater
463.225 D054 Road America Safety 2 Talkaround
461.475 D054 Road America Hospitality
461.300 D054 Road America Media

451.8125 173.8 CART Safety Repeater
451.8125 173.8 CART Talkaround

If you need any other stuff for this area let me know. There's a few
other
frequencies of interest if you are going to be visiting that area of
Sheboygan Co.

52. AFS ID 09-043 on ISP Chicago trunked system

Yahoo group: Chicago_Scanners
Date: 2000-04-21 18:43:36 UTC
From: K. O'Rourke
Topic: 52 Message: 52

Heard a "Young" unit (IL Department of Revenue) trying to contact another "Young" unit (no joy) on ISP trunked system ID 09-043. He ID'd this as "car-to-car". This is not the first time I have heard these units here. Rich Carlson's list shows this as "HV UNITS CH 2" - does anyone know what the HV identifier would stand for?

53. Old(er) Callbook Pre-1987 for Amateur License Upgrade

Yahoo group: Chicago_Scanners
Date: 2000-05-08 06:16:04 UTC
From: Will Sperling
Topic: 53 Message: 53

I am looking for a Pre-1987 callbook for the purpose of getting my XYL her "upgrade" to General Class. She is currently a "Tech Plus," (callsign is KA9KNY) as she got her Tech in 1983. I cannot locate her older license(s), and was informed that if she goes to a VE with a Pre-1987 callbook, she can fill out the requisite document(s), and get her General Class Amateur Radio License.

If anyone knows of another way this can be proven (to the VE where she attains her upgrade), please respond to me via private email, as I posted this request on several email listserv's.

Thank you in advance!

55. Kane Co. EMA using 156.1725 repeater

Yahoo group: Chicago_Scanners
Date: 2000-05-18 22:34:38 UTC
From: K. O'Rourke
Topic: 55 Message: 55

Heard Kane Co. Emergency Management Agency (EMA) using their recently (11/99) licensed 156.1725 repeater this afternoon. Monitored a fairly informal conversation between the EOC and a unit in the field in reference to reports of storm damage in their county. I believe that one of the parties refered to this channel as "K-LERN" (Kane Local Emergency Radio Network?) or something very similar. Traffic was received loud and clear on 156.170 (my radios won't do the .1725 split). The input is 154.6575. They also supposedly use a repeater on 158.835.

57. IL FCC license grants for w/e 5/13/00

Yahoo group: Chicago_Scanners
Date: 2000-05-19 01:17:08 UTC
From: K. O'Rourke
Topic: 57 Message: 57

Below are the FCC IL & US license grants / modifications of interest (IMHO) for the Chicago area and some "downstate" public safety agencies. note: this license modification adds a repeater on 156.210, as well as mobiles on 153.980 (possible input to 156.210 ?) and 156.135. Could someone within listening distance of Bolingbrook "keep and ear" on these new freqs and let the rest of us know if they're in use (and if so, what for)? 58. New talkgroup on ISP Chicago trunked system

Yahoo group: Chicago_Scanners
Date: 2000-06-13 16:06:40 UTC
From: K. O'Rourke
Topic: 58 Message: 58

I found a new talkgroup (09-141) on the ISP Chicago trunked system - units talk to "CMS", and activities appear to be security-related in nature. My guess would be IL CMS (Central Management Services) Police. Could someone (Alan?) give a brief rundown of what this agency does and what properties they protect in the Chicago area other than the State of Illinois building?

What they do is have one or two locomotives up front and another on the rear. The radios send data back and forth to control operations. 452.9375 is used to allow the locomotives to send commands to the rear end devices so a brake application can be made from the rear of the train. This is used in mountain territory. 457.9375 is used by the end of train devices/rear end devices to send data to the locomotive, including brake pressure and movement. Norfolk Southern uses 161.115 on many of it's trains for the same purposes, but with it's absorption of portions of Conrail they are starting to use the 452/457.9375. Original NS units use VHF, while former CR units use UHF.

66. In Touch headsets, FCC ID search website

Yahoo group: Chicago_Scanners

From: K. O'Rourke
Topic: 66 Message: 66

This morning, a couple of my daughter's neighborhood playmates just had to show me the new "walkie-talkies" that they had bought from Zany Brainy. They are called "IN-TOUCH", and are made by DSI Toys. They are self-contained double muff headsets (theirs are purple) with a black 11" antenna attached to one of the muffs, and are sold in sets. By going to http://www.fcc.gov/oet/fccid/ , I was able to perform a search using the FCC ID number (KNZ48450) on the headsed label, and got information on just about anything you'd want to know about these units (including the freqs they operate on). They operate in full duplex AM (!) mode as a matched set - one transmits on 49.405 Mhz, the other transmits on 49.860 Mhz. BTW, the above website is a great resource for finding out information (including operating freqs or frequency range) about anything with an FCC ID tag!

67. Lake County IL Trunked System

Yahoo group: Chicago_Scanners
Date: 2000-07-01 21:55:47 UTC
From: Rich Carlson, N9JIG
Topic: 67 Message: 67

Lake County IL Trunked System:

1 866.2500 Confirmed LCN1
2 866.3000 Confirmed LCN2
3 866.6375
4 866.6875
5 867.1250
6 867.7250 Confirmed LCN6
7 867.8125
8 867.5625

The control channel has migrated to Channel 6 today (Saturday). It had been on Channels 1 and 2 before.

As Gary Hahn has said, it appears that this system will be using an LCN order in ascending frequency order.

As of yet no talk groups have been heard active, although I have detected a couple stray telephone interconnects. These could have been anomalies in the data stream however, no voice was heard, they just showed up on the screen.

What often happens in trunked systems is that the engineers will test each group in succession, and often identify the group's name while doing so. Our friends from AOSC got all the talkgroup info from Dayton's system in this manner.

It would behoove us to keep monitoring this system during it's construction phase. Not only can we learn talkgroups, but it is often fascinating to hear the engineers chat about the system. Deserving of special attention is Dec. 1809/AFS 14-021. This has been reported on multiple systems as being used on an ongoing basis by radio techs, and has been referred to as the "Holodeck" channel on several. I guess the system engineers are also fans of Star Trek.

68. IL FCC license grants for w/e 6/10/00

70. South Elgin PD using 477.3625

Yahoo group: Chicago_Scanners
Date: 2000-07-03 21:46:26 UTC
From: K. O'Rourke
Topic: 70 Message: 70

From Randy in St. Charles:

Please pass onto the CARMA group that South Elgin PD has moved to their new
dispatch frequency of 477.3625 (110.9 pl). The repeater is quite strong and
should be able to be heard from some distance.

Randy

Topic: 71 Message: 71

Group 016 (Dec), or 00-020 (AFS) is active now with techs doing range testing.

Also heard was groups 017/00-021 and 018/022.

This is a great time to listen to the system, as a lot of neat
conversations will be heard!

More info on the new Lake County, IL EDACS System:

The first activity started at 13:52 CDT on TG 17/00-021. Most of the traffic was on 16/00-020 the rest of the afternoon. Some traffic was on 18/00-022.

There was 2 techs working, at least one was in the field calling out locations. The other was observing voice quality and watching which channels came up. Only 3 voice channels ever were voted this afternoon, LCN's 1, 2, and 7. While listening to the system the data channel from the Libertyville site switched to LCN 3 for a while, then went back to LCN 6. There was also data from a different site, probably Highland Park, on LCN 6. The data has been on LCN 6 for a week or so, it had been on 1 or 2 before.

Later the techs were chatting while both were mobile, they must of made it home about 18:00 as all activity ceased then according to the ScanStar log.

LCN 1 on this system sounds real bad, and the techs were discussing it. The other voice channels sounded fine.

73. CPD radio identifier 4861

Yahoo group: Chicago_Scanners
Date: 2000-07-07 01:33:20 UTC
From: K. O'Rourke
Topic: 73 Message: 73

The other night, I heard unit 4861 on TG 1088 of the CPD 800 Mhz tactical trunked system asking for a 10-28. I looked in the latest issue of the CPD memorandum that covers radio ID #s, and cannot find any info that covers this range of #s - anyone have an idea of who this would be?
BTW, he ID'd this TG as "Trunk 1". My notes indicate that this is the TG for the citywide console at the communications center.

Thanks in advance,
Kevin

74. More Lake Co Info

Yahoo group: Chicago_Scanners
Date: 2000-07-07 03:13:01 UTC

Topic: 74 Message: 74

4 new talk groups were active with techs this evening, 256/02-000, 289/02-041, 512/04-000 and 1041/08-021.

The data channel was bounced around a few times this afternoon among several channels.

75. Re: Air Ground Automated Radiotelephone System (AGRAS)

Yahoo group: Chicago_Scanners
Date: 2000-07-12 22:59:42 UTC
From: K. O'Rourke
Topic: 75 Message: 75

Cool map at the below website! (For example, it indicates that channels 1, 7, and 9 are in use at the Chicago-area ground station). Although neither a band nor specific frequencies are mentioned at this site, channels number 1 - 12 are. I believe this would be the system that uses frequencies between 454.700 - 454.975 (ground transmit) and 459.700 - 459.975 (aircraft transmit). Here's what I have for the channel plan (ground transmit):

Ch. 1 - 454.950
Ch. 2 - 454.900
Ch. 3 - 454.850
Ch. 4 - 454.800
Ch. 5 - 454.750
Ch. 6 - 454.700
Ch. 7 - 454.725
Ch. 8 - 454.775
Ch. 9 - 454.825
Ch. 10 - 454.875
Ch. 11 - 454.925
Ch. 12 - 454.975

Not sure if these are "illegal" to listen to (thanks to ECPA 1996, etc.) or not.
As always, corrections or comments welcome

"A" is the Danville Correctional Center. "B" is the Argenta Correctional Facility "C" is the Tower Hill site, use unknown. "D" is the Jensen Correctional Center (Paris) "E" is the Correctional Facility in Mattoon. This license is the same as before, I can find no changes in freqs or locations from the items on my web page at http://www.n9jig.com/radio/trs/il_doc.html Since the ISP coordinates all radio licensing for the State of Illinois, and these facilities are all in or near D-10, I assume that the radio guys there handle the licensing. > > >"K. O'Rourke" wrote: > > >> >> (note - this is not a new license, but I have never seen anything in >> print that actually indicates which state agency or agencies are using >> this license and for what purpose. 90. Evergreen helicopter cranes

Yahoo group: Chicago_Scanners
Date: 2000-08-02 16:28:12 UTC
From: K. O'Rourke
Topic: 90 Message: 90

Curious to know if anyone has ever come up with a frequency or frequencies for any of the companies that provide helicopter lifting services (for rooftop HVAC units, etc.) in the Chicago area. Saw an article in a television trade magazine about the placement of new digital television antennas onto Sears Tower within the past few months, and the helicopter pictured doing the lift was a Sikorsky Skycrane, and the word EVERGREEN was painted on the tail (unfortunately, a tail number was not visible, and I have not had any luck in looking up that name in the Chicago Business-To-Business phone book, nor at the FCC license index website).

Frequency posting: 167.925 - Fermilab Security and Fire Dept. operations, Batavia

Thanks,
Kevin n9mon@...

91. Fw:New FCC Rules for low power two-ways

Yahoo group: Chicago_Scanners
Date: 2000-08-08 19:06:44 UTC
From: K. O'Rourke
Topic: 91 Message: 91

The below information was posted on the CARMA listserver, and I would like to view the actual text of this rule change from the FCC.
Has anyone else heard about this change, and does anyone have / know the web address for the actual text from the FCC?

Thanks in advance,

--------- Forwarded message ----------
From: "Rich Carlson, N9JIG" <rich@...>
Date: Fri, 4 Aug 2000 09:31:36 -0500
Subject: New FCC Rules for low power two-ways

The FCC has made new rules that eliminate the need for licenses on the following freqs, limited to 2 watts:

154.570
154.600
151.820
151.880
151.940

These are commonly found in radios sold at Wal-Mart etc., and channels referred to as "Dot" freqs. Since most users never bothered with getting a license anyway the FCC gave up on it.

93. New? Will County, IL talkgroups

Yahoo group: Chicago_Scanners
Date: 2000-09-02 03:56:28 UTC
From: K. O'Rourke
Topic: 93 Message: 93

Was lucky enough to be monitoring the Will Co. EDACS system Thursday between 8:45 - 9:15 AM.... big-time VHF skip (a friend of mine copied activity on SIX NOAA weather freqs while driving his van during this same time period) - TG 15-097 appears to be a patch or link to a low band or high band VHF freq - heard Indiana State Police puting out "ISPERN-style" dispatches out of their posts in Peru and Jasper - I believe these dispatches were proceeded by a tone (possibly one of the old 39 Mhz freqs that Will Co. SO used to use? is either 39.46 or 39.50 in use there?), skip seems to have gone away after about 9:15 AM, because I heard nothing else there. I did not hear any other local traffic on 15-097 that would help me ID this freq (makes me think that is probably was not 155.475 - any ideas?)

On the ride home at about 6:45 PM that evening, heard someone repeating the word "testing" on TGs 4-101 and 4-102 - anyone else have notes on these two?

94. Users of interest on Chicago's 900 MHz "Allegro" trunked system

Yahoo group: Chicago_Scanners
Date: 2000-09-02 04:21:39 UTC
From: K. O'Rourke
Topic: 94 Message: 94

Found the following talkgroups of note (IMHO) on the Allegro system:

2448 - Powers Towing (Hillside, IL)
5008 - A1 Limo (office in Bloomingdale / Addison area)
5040 - A1 Limo?
5072 - A1 Limo, Ch. 2
5104 - A1 Limo, Ch. 3
6608 - Union Pacific RR Police (mainly activity in the near west side "Global One" yard)
8688 - City of Chicago?, sounds like folks issuing citations for possible zoning or ordinance violations, Chicago addresses - there was mention of a violation dealing with tattooing and body piercing.....anyone familiar with which department(s) using this TG?
19824 - hotel shuttle bus, possibly O'Hare area?
24080 - sounds like elevator repair, "terminal 3" mentioned last fall....
28240 - motor coach (bus) company
35104 - security guard company
35120 - (same)
35152 - (same)

the rest of what I've been able to note on this system seems to be the typical assortment of construction, refuse hauling, plumbing repair, materials, freight, air cargo, auto repair / towing, package delivery, inter modal, etc. - type ops. Still listening in the hopes of finding another "diamond in the rough"..

BTW, I have been able to confirm the following freqs a part of this system:
939.7625, 939.775, 939.7875, 939.875(?), 939.8625(?), 938.7625, 938.775, 938.7875, 938.800, 938.825, 938.850, 938.8625, 938.875

The following freqs were reported to be associated with this system at one time, I have not been able to confirm their use by this system:
936.7375, 939.1375, 939.1625, 939.1875, 939.800, 939.8125, 939.825, 939.8375, 939.850, 938.8125, 939.8375

I keep them entered in the same bank just in case.....

A while ago, someone reported that callsigns WNKX674, WPCN242, and WNSZ936 were (are?) associated with this system.

95. Midwest Grants 9/02 IL,IN,WI,MI

Yahoo group: Chicago_Scanners
Date: 2000-09-02 14:42:50 UTC
From: Jerry
Topic: 95 Message: 95

The Grants for week ending September 2 are now available for viewing or downloading. Point your browser to http://ilgrant.home.att.net to get the latest info on new and modified licenses in Illinois, Wisconsin, Indiana and Michigan.

Starting in mid-September, the FCC will be starting to move licensing of the Private Land Mobile Services to the Universal Licensing Service. This move will be done in 3 phases. The public safety portion, which is what most of us are interested in, will be moved in the 2nd phase in October. (Anyone interested in seeing the Word document of the schedule for the transition can e-mail me.)

At this time, I have no idea what the database format will look like. If there is drastic changes between the future format of the database and the current format, the Grant Pages may be offline temporarily until I can develop a new program to handle the information.

As always questions, comments and suggestions are always welcome.

Mt. Prospect PD is on the NWCD Astro system and is as yet not
available on a scanner. The FD is currently on 154.205, but they too
will soon be on the Astro system and not available on a scanner.

There is no currently available consumer equipment to monitor Astro. One could buy an Astro capable radio from Motorola (BIG bucks) and try to get it programmed for the NWCD system, but that too is problematic. First off is the cost. Think multiple kilobucks to get the radio new, and even used they are expensive. Next, to get it programmed you need the freqs (easy to get, see my webpage) talkgroups (harder but not impossible) System Key (Impossible if you listen to Motorola, difficult in reality) and the correct hardware and software to program it.

There should be an Astro capable scanner available within a year, and it may be affordable in 2 years.

The FCC License Grants for week ending September 16 are now available for viewing on line or downloading. Point your browser to http://ilgrant.home.att.net to get the latest info on new and modified licenses in Illinois, Wisconsin, Indiana and Michigan.

* * * REMINDER * * *
On September 14th, the FCC started to move licensing of the Private Land Mobile Services to the Universal Licensing Service. This move will be done in 3 phases. The public safety portion, which is what most of us are interested in, will be moved in the 2nd phase in October. (Anyone interested in seeing the Word document of the schedule for the transition can e-mail me.)

The updating of the Midwest Grant Pages may be delayed due to changes in the database format the FCC is using.

Questions, comments and suggestions are always welcome. Send an e-mail to fccgrant@...

109. Illinois State Police community service unit?

Yahoo group: Chicago_Scanners
Date: 2000-09-18 21:04:47 UTC
From: Kevin ORourke
Topic: 109 Message: 109

While driving past the Dunkin' Dounuts on Roosevelt Rd. in Oakbrook Terrace a few days ago, I spotted a very interesting squad pulling into the parking lot. It had the yellow "wedge" and "Illinois State Police" on the side, but below that, in what looked like dark green lettering on the drivers door, were the words "Community Service Unit". The car sported state "U" plates instead of regular ISP plates, had an older light bar on top, and was driven by an "older" man in a khaki uniform shirt. I know that there used to be an ISP auxillary unit based out of D4 in Crestwood many years ago, but have heard nothing about the existance of Community Service units - can someone fill me in on this? Also, what radios do they use (didn't get a good look at the antennas, but don't remember seeing a low-band whip), and what callsigns do they use?

Thanks,
Kevin n9mon@...

114. Sept 23 FCC Grants for IL,IN,WI,MI

Yahoo group: Chicago_Scanners
Date: 2000-09-24 17:30:35 UTC
From: Jerry
Topic: 114 Message: 114

The FCC License Grants for week ending September 23 are now available for viewing on line or downloading. Point your browser to http://ilgrant.home.att.net to get the latest info on new and modified licenses in Illinois, Wisconsin, Indiana and Michigan.

* * * REMINDER * * *
On September 14th, the FCC started to move licensing of the Private Land Mobile Services to the Universal Licensing Service. This move will be done in 3 phases. The public safety portion, which is what most of us are interested in, will be moved in the 2nd phase in October. (Anyone interested in seeing the Word document of the schedule for the transition can e-mail me.)

The updating of the Midwest Grant Pages may be delayed due to changes in the database format the FCC is using. This will also result in smaller listings to view in the Zipped and on-line packages.

Questions, comments and suggestions are always welcome. Send an e-mail to fccgrant@...

115. Downers Grove FD move to 453.050

Yahoo group: Chicago_Scanners
Date: 2000-09-27 19:20:41 UTC
From: Kevin ORourke
Topic: 115 Message: 115

DGFD's move to 453.050 (repeater) may not be too far off. Heard unit "719" IDing this as "UHF Fire" while performing radio checks with "Operations" on rig and handheld radios. As of this time, other village operations are still on this channel, including what sounded like the animal warden.

116. 120.775 traffic

Yahoo group: Chicago_Scanners
Date: 2000-09-28 22:53:06 UTC
From: Kevin ORourke
Topic: 116 Message: 116

Early this evening, there was a DEA aircraft up on a mission of some kind, and he started experiencing some kind of problems (he was working unheard ground units on 418.625). My attention was diverted for a moment, but when I came back, there was some traffic on 120.775 between two aircraft, one was talking about landing at DuPage with some kind of power-related problem, while the other was talking of going to Detroit. I looked in my notes for 120.775, and the only notes I have say that this has been reported with federal aircraft activity, and another saying that this has been reported as a DEA interplane channel. Has anyone previously confirmed this useage of 120.775 in the Chicago area?

I rolled some tape on 120.775, and upon review of the tape, heard callsigns FLINT 530 and FLINT 526 mentioned. There were also references made to getting back to DuPage airport. If memory serves correct, I believe that I remember saying that DEA has some aircraft housed there.

118. Sept 30 Grants for IL,IN,WI,MI

Yahoo group: Chicago_Scanners
Date: 2000-10-01 04:03:04 UTC
From: Jerry
Topic: 118 Message: 118

The FCC License Grants for week ending September 30 is now available
for viewing on line or downloading. Point your browser to
http://ilgrant.home.att.net to get the latest info on new and modified
licenses in Illinois, Wisconsin, Indiana and Michigan.

* * * REMINDER * * *
On September 14th, the FCC started to move licensing
of the Private Land Mobile Services to the Universal Licensing Service.
This move will be done in 3 phases. The public safety portion, which
is what most of us are interested in, will be moved in the 2nd phase
in October. (Anyone interested in seeing the Word document of the
schedule for the transition can e-mail me.)

The updating of the Midwest Grant Pages may be delayed due to changes
in the database format the FCC is using. This will also result in
smaller listings to view in the Zipped and on-line packages.

Questions, comments and suggestions are always welcome.

119. Federal agency Chicago-area use of 120.775 confirmed

Yahoo group: Chicago_Scanners
Date: 2000-10-04 17:23:37 UTC
From: Kevin ORourke
Topic: 119 Message: 119

Upon review of an audio tape I rolled on 120.775, I can confirm Chicago-area use of 120.775 by Drug Enforcement Agency (callsign "FLINT") aircraft. This frequency is called "VICTOR 2" (probable candidates for "VICTOR 1" would be 120.375, 123,775, 133.200, and 135.500), 281.400 has been listed in the past as UHF air / air.

120. Chicago-area blimp communications monitored

Yahoo group: Chicago_Scanners
Date: 2000-10-05 17:37:49 UTC
From: Kevin ORourke
Topic: 120 Message: 120

Yesterday, while dialing thru the VHF aircraft band here in Chicago's western suburbs, I came across the tail end of a conversation on 123.300 that had to do with interference to audio frequencies (notes indicated previous reports of Met Life blimp use). Unable to sit and monitor any longer, I set up a VOX cassette recorder overnight. Upon review of the tape, I heard many communications between "One Alpha Bravo" (tail # N1AB, the Sanyo blimp) and "Bud 1" (Budweiser blimp). Both were the freq to coordinate with their respective ground crews (Bud 1 was docking in Joliet, N1AB at DuPage airport in West Chicago) and each other (seems that at least one of them was providing aerial video for the Sox - Mariners AL playoff game). According to some internet research, both airships are operated by the same company (The Lightships Group), which also operates other corporate blimps.

Here's a few web addresses of interest:

http://www.goodyear.com/us/blimp - Good Year blimps
http://www.blimp.com - Met Life blimps
http://www.lightships.com - The Lightship Group
http://spot.colorado.edu/~dziadeck/airship/htmls/introduction.htm - AIRSHIP website, many cool links, more than you ever wanted to know about airships past and present.
http://ohio.com/kr/blimp/blimp.htm - anatomy of a blimp, how they operate

Other traffic caught on tape indicates that the frequency is also used "locally" for parachute jump planes in the Hinkley, IL area and Executive Air in Green Bay, WI.

121. Saturday 10/7/00 CARMA meeting

Yahoo group: Chicago_Scanners
Date: 2000-10-05 18:27:15 UTC
From: Kevin ORourke
Topic: 121 Message: 121

The Chicago Area Radio Monitoring Association (CARMA) will meet Saturday, October 7 at Phillies Pizza, 6300 Kingery Highway, Willowbrook IL. Phillies is in the shopping center on the SW corner of Kingery (IL-83) and 63rd Street, a couple miles north of I-55, and a couple miles south of Ogden Av (US-34).

The meeting starts at 1:00 PM, but get there from 11:00 AM to 12:00 Noon to eat. You must buy lunch, since we get the room for free. The food is great, especially the pizza and chicken.

Directions and details are on the CARMA Web Page at
http://www.theramp.net/shabec/carma.htm

See ya there!

122. Spectra Cable Needed

Yahoo group: Chicago_Scanners
Date: 2000-10-06 01:43:55 UTC
From: Rich Carlson, N9JIG
Topic: 122 Message: 122

I need the Control Cable for a Spectra A9. One cable I know will work is the HKN4356A or B, I suspect there may be others. (This is the cable from the trunk unit to the control head, not the programming cable!)

I also would like to get a couple of the Turn-On Lead cables for the one piece low power Spectra (DB-15 connector with a single power lead and the speaker connector).

Thanks!

124. 2001 CARMA Meeting Dates

Yahoo group: Chicago_Scanners
Date: 2000-10-08 04:12:07 UTC
From: Rich Carlson, N9JIG
Topic: 124 Message: 124

The 2001 CARMA Meeting Dates are as follows:

February 3, 2001 Home Run Inn, Arlington Hts IL
April 7, 2001, Phillies Pizza, Willowbrook IL
June 2, 2001
August 4, 2001
October 6, 2001
December 8, 2001

Also, the final CARMA Meeting of the Millennium is on December 2, 2000 at Phillies.

The Picnic date and location are still to be determined. If you have site locations for the Picnic this year let a Board Member know. We are considering getting the shelter at Shoe Factory Woods again, this had been the site for a couple years way back.

Some old time members may recall the Headless Horseman incident where a long-wire antenna had inadvertently been strung across a bridal path. We found out that the Forest Preserve Police really do have a sense of humor!

Yahoo group: Chicago_Scanners
Date: 2000-10-08 14:25:03 UTC
From: dhudik@aol.com
Topic: 125 Message: 125

From the East:

Exit RT. 59
RT. 59 South (left hand turn) to Shoe Factory Road (next light after the tollway)
Turn left on Shoe Factory Road
Forest Preserve is on your left (North)

From the West:

Exit RT. 59
RT. 59 South (right hand turn) to Shoe Factory Road (next light after the tollway)
Turn left on Shoe Factory Road
Forest Preserve is on your left (North)

Should take you less than 5 minutes to get there once you get off the tollway

Hope this helps

Dave

126. FCC STAs available on the web?

Yahoo group: Chicago_Scanners

Playing "catch-up", here's the items of interest (IMHO) from Jerry's IL / US FCC license grants and mods report for the w/e 8/26/00. More of these for subsequent weeks will follow shortly. Obviously, I may well have edited something of interest to you out of these reports, the full reports can be found at Jerry's site (http://home.att.net/~ilgrant/). BTW, I include all new public safety grants and mods, as well as general interest items from the Chicago area in my edited reports..... 134. Chicago area 2m repeaters

Yahoo group: Chicago_Scanners
Date: 2000-10-20 00:02:35 UTC
From: Randy True
Topic: 134 Message: 134

I have a non-computerized friend, who will be traveling to the Chicago
area, and would like to know the most widely used 2m repeaters in the
area.

Thanks,

Randy True

146.760 is Chicago FM Club (CFMC)
146.925 is FishFar (Mostly Motorola users, requires MDC)
147.255, 147.225, 147.06 are also ones I hear often.

Tell him that almost every repeater pair is active in the Chicago
area, and try PL 107.2, since that is the most common 2M PL around
here.

The EJ&E Railroad has changed their Western Subdivision freq to 161.475. Eastern Sub operations continue on 160.350, and M/W are still heard on 161.550.

This info courtesy of the IlliniRail list at Egroups.

Topic: 142 Message: 142

The June 2000 issue of Monitoring Times magazine (p. 82) had a good run-down of the typical frequency pairings for fast food drive-thrus. The article also says that a more detailed list can be found at their website http://www.grove-ent.com - click on the "Monitoring Times" link there, and then go to the MT reference library. The standard McD freq pair used to be 35.02 (order board) / 154.600 (headsets), but over time, many locations have gone to other pairs. Some fast food locations are now using 900 Mhz wideband FM systems in the ISM (920-921 orderboard / 903-904 headsets) freq range.

Would you like cheese with that?

Here is some of the PD activity that I am hearing re: Bush's visit to College of DuPage in Glen Ellyn:

471.0125 - DuComm Ch. 5 - local DuComm dept. officers detailed to this event

854.9625 - DuPage Co. Sheriff Ch. 2 (repeat) and Ch. 6 (simplex)

453.600 - College of DuPage Public Safety repeater - "central" is their dispatcher

"Incident Command" heard on above freqs is a COD officer(!)

Have not had the chance to scour the USSS freqs for activity yet. (1405 hours)

Topic: 146 Message: 146

Was doing a little poking around at the FCC site where you can search for information on FCC-authorized devices using their FCC ID number (http://fcc.gov/oet/fccid), and came across some information on a product that Uniden got approved last fall, something they call the Scannocular. It is a combination of a general coverage scanner and a pair of binoculars. The rather lengthy link below will display a page full of links to things like photos, test data, draft copy of owners manual, etc. - odd item, wonder if it will ever "see" the light of day. ;-)

In addition to "Truck 43" (the duty water man who also picks up bikes and live/dead animals), you'll still hear some commuter buses, and an occasional park district employee or two. Everyone else from the Village of Downers Grove, Downers Grove Park District, and the Downers Grove Sanitary District have "moved" to Nextel. I'm told that the community TV "Channel G" may also pop up on 453.050 from time to time.

148. New ISP south system talkgroups, etc.

Yahoo group: Chicago_Scanners
Date: 2000-11-19 00:59:32 UTC
From: n9mon@juno.com
Topic: 148 Message: 148

Yesterday, while searching the ISP south system for new talkgroups, I heard (within a minute or so of each other) key-ups on TGs 14-047, 14-050, and 14-051.... even heard someone blow into the mic on one or two of these, but no voice while I was monitoring. Also heard some amusing traffic on District 2 car/car TG 09-124 - "Robert 2" performed a brief radio test with 2-5, and then one at a time, about five or so very young male voices identified themselves by their first names and asked 2-5 for a radio check as well. After all of this, one of the boys asked about going out for pizza - 2-5 asked the boy if he was buying, the boy said no, and then 2-5 said "then I guess we're not going out for pizza" - I'm thinking either a group of Cub Scouts on a tour of District 2 HQ or they're starting the new recruits out awfully young these days! ;-)

From a reliable source: The ISP D-Chicago EDAACS Trunked System is not set up correctly for D-2 coverage. Although there is a complete trunking site at the Argonne tower (near I-55 / Cass Ave) it has never been configured correctly. About 3/4 of the area that D-2 covers does NOT work with the D-Chicago Trunked System. I-55 is just about a total dead spot from County Line Road to the east, and I-355 to the west (the DuPage County area that D-2 covers). The troopers are constantly complaining that either they can't hear Elgin, or Elgin can't hear the troopers when they're on I-55, the Elgin/O'Hare Expy, or I-290 quite frequently.

Funny you mention this. We went out and did a story on the 39
car pile up on the Elgin -O'Hare last week. The trooper from dist 2 laughed
out loud when I said I was supprised that he was still using the low band .
Are they still using it? He was driving a new Ford and it had the big ole low
band whip in back. JIM

You are exactly right. I know of one "brand new" ISP 2000 Ford Crown Victoria that is on patrol in the south DuPage County area of District 2, generally on I-55. This squad has all the same radios that the former car the trooper drove when he "turned in" his 1995 Chevy Caprice with 160,000 miles. That includes the low-band radio, high band radio, plus the 800 Mhz trunked radio on the D-Chicago system. The new installs also contain the in-car lap-top computers which are mounted in the center console, and removed nightly by the troopers. The new computer system is IWIN (the cellular- based CDPD protocol), as ISP is moving away from the ALERTS network.

Oh, here's another little tidbit: twelve to twenty five old State cars (150,000+ miles) that were in Springfield ready for auction, were re-lettered and striped, and all the electronics were re-installed to accommodate all the new troopers recently graduated from the Academy, assigned to the various districts. The bottom line? They just didn't have enough cars for the new recruits, and didn't buy new cars (for anyone).

From: Rich Carlson, N9JIG
Topic: 156 Message: 156

The next meeting of CARMA will be at Phillies Pizza & Restaurant, IL Route 83 (Kingery Hwy) and 63rd Street in Willowbrook on December 2, 2000. Get there about 11:00 AM and the meeting starts at 1:00 PM.

The first meeting of the new Millennium will be on February 3, 2001 at a new location. This will be at Home Run Inn Pizza, IL Route 62 (Algonquin Road) just east of Arlington Hts. Road in Arlington Hts. Regular meeting rules will apply:

1) Everyone must buy a meal.
2) If you don't pay your check you will be shot.
3) Be good to the wait staff.

Home Run Inn agreed to our request for separate checks. Feel free to share pizzas if you wish, just make sure we don't stiff the restaurants. Let's see how HRI works out, if we like it and they like us we may use it as a regular location.

The CARMA Directors have researched various meeting locations. While it is doubtful that anyplace can surpass Phillies, we will entertain new locations as long as they meet our needs. It is anticipated that we will continue to hold at least every other meeting at Phillies. If other locations can not meet the standards set by Phillies we will meet there more often.

We are still in need of a volunteer to acquire a picnic site for this summer. The Picnic Chairman will need to acquire a permit (if needed for the location) and work with the board to arrange a suitable date.

All meetings start at 1:00 PM, lunch at 11:00 AM.

CARMA Meeting Dates: (All are Saturdays)

December 2, 2000, Phillies Pizza, Willowbrook IL
February 3, 2001, Home Run Inn Pizza, Arlington Hts. IL
April 7, 2001, Phillies Pizza, Willowbrook IL
June 2, 2001, TBA
August 4, 2001, TBA
October 6, 2001, TBA
December 8, 2001, TBA

157. Indiana Radio/HiWay System

Yahoo group: Chicago_Scanners
Date: 2000-11-28 03:33:30 UTC
From: Will Sperling
Topic: 157 Message: 157

Over the Thanksgiving weekend, we had the opportunity to travel on Interstate Rt. 65 through Indiana. Right where it began in Indiana from the Illinois border, I observed what appeared to be a very unique set of antenna arrays on and along the Interstate. At just about every interchange, an approx. 60-90' tower had a microwave dish on the top, and several "tongues" (about the best I could explain) which I surmise are yagi's with a plastic "boot" covering them at about the 2/3 point of the tower, and camera's pointing in various directions. There was also some kind of interface where all the feed-lines and control cables plugged into, right on the same location where the camera's and yagi's were mounted.

Now I observed this configuration at probably 30-50 locations, and, at various places along this same route, were "small cabinets" with a mast attached to it, with these "tongue" antennas pointing in opposite directions along the Interstate.

I presume this is some type of visual and traffic tracking for the Indiana DOT or other similar administrative group.

This system must have cost in the mega-millions of dollars, because of the amount of towers and cabinets that I plainly observed for probably 25 miles or so along Interstate 65 in Indiana.

2) If you don't pay your check you will be shot.
3) Be good to the wait staff.

Home Run Inn agreed to our request for separate checks. Feel free to share pizzas if you wish, just make sure we don't stiff the restaurants. Let's see how HRI works out, if we like it and they like us we may use it as a regular location.

The CARMA Directors have researched various meeting locations. While it is doubtful that anyplace can surpass Phillies, we will entertain new locations as long as they meet our needs. It is anticipated that we will continue to hold at least every other meeting at Phillies. If other locations can not meet the standards set by Phillies we will meet there more often.

We are still in need of a volunteer to acquire a picnic site for this summer. The Picnic Chairman will need to acquire a permit (if needed for the location) and work with the board to arrange a suitable date.

All meetings start at 1:00 PM, lunch at 11:00 AM.

CARMA Meeting Dates: (All are Saturdays)

December 2, 2000, Phillies Pizza, Willowbrook IL
February 3, 2001, Home Run Inn Pizza, Arlington Hts. IL
April 7, 2001, Phillies Pizza, Willowbrook IL
June 2, 2001, TBA
August 4, 2001, TBA
October 6, 2001, TBA
December 8, 2001, TBA

163. NEFERN - Cook County

Yahoo group: Chicago_Scanners
Date: 2000-12-08 16:20:34 UTC
From: Edward Bartunek
Topic: 163 Message: 163

I have a NEFERN frequency 154.265. There have been several mutual aid calls recently in which Forest Park, North Riverside, Berwyn, Stickney, River Forest, Oak Park and Cicero have been involved and I have not been able to catch the fire calls on the 154.265. Is there an updated frequency for this area?

Also frequencies for the Cook County Forest Preserve Police, especially in the Palos and Salt Creek districts.

Thanks

164. Re: [Chicago_Scanners] NEFERN - Cook County

From: dhudik@aol.com
Topic: 163 Message: 164

Ed,

The calls you may have referring to may have been Automatic Aid calls. A lot of FD's now have Automatic Aid (AA) due to budget cuts. AA is when a pre determined number of departments respond to the stricken FD on the initial dispatch. This does several things: 1) gives additional man power to the scene without totally stripping the stricken town of all of its apparatus and personnel. 2) Allows for the additional units to respond on the initial dispatch without waiting for a size-up and command to decide if more equipment and manpower is needed.

Another reason that you may have not heard anything on NIFERN (Northern Illinois Fire Emergency Radio Network) is they may have either stayed on there local freq (154.1900) since they all have it or went to Fireground (153.8300) to keep radio traffic to a minimum on NIFERN. It is very common for FD to switch to FG when they arrive on the scene.

Hope this helps

Dave

The Northern Illinois Mutual Aid Fire Emergency Radio Network
(NIFREN) does operate on 154.265. Some suburbs, especially on the
south edge, use 154.280 for Mutual Aid purposes.

Often towns will remain on the local dispatch channel or use
Fireground (usually 153.830) at alarms. In the area you describe try
154.190.

Cook County FPD uses the Cook County Sheriff's freqs, so in the area
you are interested try 155.535. They are also found on 154.995.

169. BC780 Mod instructions

Yahoo group: Chicago_Scanners
Date: 2000-12-31 19:31:39 UTC
From: Rich Carlson, N9JIG
Topic: 169 Message: 169

No, not THAT one, but much more useful and perfectly legal!

Everyone wants the Discriminator Mod for decoding various tones and signals. Don't like the way the 780 searches thru PL tones? Connect a PL decoder to the discriminator. Want to decode digital signals? RTTY? Connect to the discriminator.

Here are the easy instructions!

1) Open the case by removing all 8 side case screws. Carefully unplug the speaker from the main board.

2) Drill a 1/4th inch hole on the rear frame below the Tape Out jack. Do not drill thru the inside case member.

3) Mount a RCA phone jack (like those at Radio Shack) in the newly drilled hole.

4) Solder a 6 inch long small gauge wire to the center conductor of the new jack.

5) Route this wire between the circuit board and the frame just forward of the antenna connector.

6) Tack solder the far end of the wire to the circled solder pad on the top side of the board marked "LND14 FM Det. Out"

7) Reassemble the radio. Don't forget to reattach the speaker connector. (Doh!)

Now you can plug in your DC442, Data slicer, or other discriminator using device.

Enjoy!

170. "Covert South" TG ID'd on ISP South TRS

Yahoo group: Chicago_Scanners
Date: 2001-01-03 23:08:47 UTC
From: n9mon@juno.com
Topic: 170 Message: 170

Have been hearing some sporadic voice traffic this afternoon on TG 08-085 of the ISP South TRS today. A few minutes ago, one of the users ID'd this TG as "Covert South" - FYI, this is a TG listed for use in ISP OPS South radios (used by DII / MEG-type investigators / agents vs. troopers). I'd imagine the "Covert North" can't be far away (08-084???). Still unidentified TG IDs for the "ISP OPS" radios would be "INVEST", "ESU NTH", "ESU STH", "DII N", "DII S", "MEG N", "MEG S", "INVEST N", "INVEST S", "CVRT N", and "DETAIL" (08-021?? I believe 08-131 might be "Detail S"). If anyone has monitoring notes that seem to link TGs to the above IDs, would you please let me know?

171. Cicero PD, others using 471.600 (part of LTR TRS?)

Yahoo group: Chicago_Scanners
Date: 2001-01-03 23:55:42 UTC
From: n9mon@juno.com
Topic: 171 Message: 171

Started listening to 471.600 for Loyola Lifeflight this afternoon (as mentioned on the CARMA listserver) - didn't hear them, but I have heard other users here - including what sounds like the Cicero PD - heard "290"-series units working "Cicero", being dispatched to check for parking violations at various Cicero street addresses, as well as being sent out for prisoner meals (perhaps this is what was previously monitored on 472.6125 and ID'd as their "code enforcement" ops?). Also seems to be a hotel shuttle bus operation here, as well as some kind of automotive repair or parts operation. Anyone with an Optotraker, etc. care to try and determine which freqs are a part of this system???

172. Chicago Bears quarterback radio freq

Yahoo group: Chicago_Scanners
Date: 2001-01-05 23:15:44 UTC
From: n9mon@juno.com
Topic: 172 Message: 172

According to Bill Dunn of Official Scanner Guides, the frequency reportedly used by the Chicago Bears to talk to the quarterback during a game is 464.8375 (D115). The radios use Transcrypt Technologies encryption, so the only thing you'll supposedly hear is "Donald Duck-type" audio. In addition, 151.625 (74.4 pl) and 461.4625 (pl unknown) are freqs reportedly used by the Bears organization in the past. Denny Biagioli discovered that 451.700 was used this season for game-day security at Soilder Field this season (still Garcia Security?).

174. Superior Ambulance found on ESP Leasing LTR TRS!

Yahoo group: Chicago_Scanners
Date: 2001-01-14 21:52:17 UTC
From: n9mon@juno.com
Topic: 174 Message: 174

With some good info from Jeff Zeman (thanks, Jeff!) and after many years of searching and speculating, my '780 and I have found Superior Ambulance (including Illinois Medicar, "Norcom", etc.) on the ESP Leasing 800 MHz LTR TRS! IDs found so far are 0-05-245 (Dispatcher) and 0-05-246 (Mobiles) (Jeff also reports hearing traffic that might be Superior on 0-05-247, but I have not heard anything there yet). It is Sunday, and the system is fairly busy - there might be other IDs in use by Superior, or possibly separate IDs that would be used by IL Medicar (they are using the above IDs today) during the busier weekdays when additional dispatchers might be on duty and their workload would be much heavier, so don't hesitate to let your '780 do a little searching. There is also some ambulance-type traffic on 0-03-157 (Base and mobiles), unknown if this is a different company or not.

Thanks again to Jeff, here is the channel / frequency plan for this system:

```
01 851.0125
02 -------------
03 851.3375
04 -------------
05 852.3625
06 -------------
07 853.9875
08 853.3375
09 853.4375
10 -------------
11 854.1375
12 854.3375
13 854.8875
14 858.3625
15 855.6625
16 855.8625
17 855.9125
18 853.9375
19 855.3625
20 857.3625
```

Originally, Jeff wasn't certain whether he had this list exactly right or not. I don't seem to notice any problems or obviously missed communications yet.

As a bit of background information, the last I knew, Superior had a division called Metro Paramedic Service that provided contract paramedic services to local FDs (Elmhurst, Glen Ellyn, anyone know which other departments contract for their services?) - these might be the rigs

calling the dispatcher "Norcom" here. BTW, as recent as a few years ago, the following freqs were also licensed to / in use by Superior... 461.025 (210.7, admin ops. repeater), 155.325 (?), 155.220 (173.8), and 153.500. Their main facility is located at 395 W. Lake St. (also affectionately know as "the box" or "395"), and are reported to have ambulances housed out of various other locations in the Chicago area (including a unit reportedly housed at Edward Hospital in Naperville). Ambulances and medicars normally get their calls sent to them via alphanumeric pager, so the only time that you're likely to hear a unit being dispatched to a call over the TRS would be if the paging system was down (happened today) or if it was a matter where every second counted. They also employ some kind of status reporting system (enroute, arrived, clear, etc) in the rigs (freq. used unknown), but it was not working today.

Any other info that could be provided about Superior's basic operations (divisions, unit numbering schemes, etc.) would be greatly appreciated by the author.

175. Unknown ambulance operations on ID 0-03-157 of the ESP Leasing 800 Mhz TRS

Yahoo group: Chicago_Scanners
Date: 2001-01-16 01:21:25 UTC
From: n9mon@juno.com
Topic: 175 Message: 175

I've been taking some notes as far as general area of coverage of the unknown ambulance company using ID 0-03-157 on the ESP Leasing 800 Mhz TRS, and here's what I've got so far from my limited monitoring -

Palos Community Hospital (Palos Heights)
St. Francis Hospital (Blue Island)
Christ Hospital (Oak Lawn)
nursing home in South Holland
Lexington (Orland Park)
dispatched to a traffic accident in Crestwood
Imperial nursing home (W. Fullerton in Chicago) (possibly a call on the Superior IDs and mistaken for this ID?)

Any firm ideas here? Daleys or CoMed (I'm told that both both were recently purchased by Superior per a private e-mail)?

Thanks,

176. 780

Yahoo group: Chicago_Scanners
Date: 2001-01-16 05:22:27 UTC
From: Jerry
Topic: 176 Message: 176

Thanks again for picking up my 780, Kevin. Been enjoying it quite
a bit and have already come up with a program to assist in the Alpha
tagging of the unit as the method using the radio is a pain.

BTW, I didn't have the 780 home more than 5 minutes that I already
had the top cover pulled off! There was a rattle inside the radio.
Turned out to be a small broken plastic tie-wrap flying around inside.
Nothing critical I hope.

Ambulance unit numbers are in the 900-series (901 - 921 noted so far), and are often shortened by leaving off the 9. Last night, one of the rigs made a run from the sw 'burbs into Rush / Pres / St. Luke's, and was told by the dispatcher to "switch over to channel 1" when he got into the city (safe to assume that ID 0-03-157 is not channel 1). BTW, Jeff Zeman drew my attention to ID 0-03-158, seem like primarily medicar use, I'm assuming that this is somehow related to 0-03-157 (possibly their medicar operation).

Jeff also gave me a heads-up on the following IDs, all seeming to be either ambulance and / or medicar operations:

08-246 (base) / 08-247 (mobiles) - ambulance (and poss. medicar?)
09-248 (base and mobiles) - medicar (and poss. ambulance?)
16-086 - medicar and/or ambulance??
20-106 - one I found, not enough traffic yet to figure anything out

This system seems to have many ambulance / medicar operations - I was wondering why I wasn't finding any on the Moto systems as of yet.....

179. Ambulance company using ID 0-03-157 on ESP 800 Mhz LTR TRS

Yahoo group: Chicago_Scanners
Date: 2001-01-18 12:34:42 UTC
From: n9mon@juno.com
Topic: 179 Message: 179

I'm still trying to figure out the identity of the ambulance company on ID 0-03-157 (and most likely thier medicar division on ID 0-03-158) of the ESP 800 Mhz LTR TRS. The best clue so far is that one of the rigs was sent to an ambulance call at a residence in Crestwood - they were told by the dispatcher to switch to "fire band" (Crestwood FD dispatch freq?) to advise them of an ETA. Can someone confirm whether or not there is a private ambulance service that has a contract with the village of Crestwood? (I believe that someone previously advised that Trace Ambulance out of Tinley Park responds to accident w/ injury calls in Crestwood). The only other clues that I have are that their ambulance numbers are in 901-922 range, and that one of the rigs was told to switch to "channel 1" when he got into the city of Chicago (was going to Rush-Pres-St. Lukes).

Thanks in advance,

180. CARMA BC780 Workshop

Yahoo group: Chicago_Scanners
Date: 2001-01-19 03:34:18 UTC
From: Rich Carlson, N9JIG
Topic: 180 Message: 180

CARMA, the Chicago Area Radio Monitoring Association, will hold an informal BC780 Workshop "Friday Nighter" at the Woodridge Community Resource Center (CRC) on Friday evening, 26 January 2001. Arrive between 6:30 and 7:00, we will start about 7:00.

The CRC is located on the S/W corner of 83rd St & Janes Ave. in Woodridge. The actual address is 8274 Janes Ave., and the phone number is 630-910-7027. The staff during the day may not be aware of our using the CRC on Friday evening, but it has been approved by the Deputy Chief who is in charge of the unit. The facility is in a smaller "strip mall," and is NOT marked, except for the address above the door. It's in the same location with Papa's Pizza (excellent food - comparable to Phillies), a package liquor store, a private mail-box store, etc.

Best way to get there would be I-355 south to 75th St. west. Go right one stoplight to Janes Ave, and turn left, on Janes Ave. southbound. Go about 2 miles, and just before the 83rd St traffic light, the plaza is on your right.

Several of us may meet earlier at Papa's Pizza for eats.

We will still be discussing the 780 at the February 3rd meeting in Arlington Hts. but this will allow a more detailed look at this fascinating radio.

181. New version 2.0 of Andy's 780 program "released"!

Yahoo group: Chicago_Scanners
Date: 2001-01-23 01:04:50 UTC
From: n9mon@juno.com
Topic: 181 Message: 181

BC780 Fans,

Andy, a member of one of the BC780 clubs at egroups.com has just come out with an updated version 2 of his '780 upload/download/control program. It can be found at the following LONG link (be sure to get it all on the same line or it won't work)-

http://www.egroups.com/files/UnidenBC780XLT/780+Programmer+by+Andy+ver2%2E0++2001-01-21%2Ezip

I've been using version 1 and found it to be a good program (even better because it's FREE!)

182. Ambulance / Medicar finds on ESP 800 Mhz LTR TRS

Yahoo group: Chicago_Scanners
Date: 2001-01-23 01:51:10 UTC
From: n9mon@juno.com
Topic: 182 Message: 182

Here's update on what ambulance and medicar ops I've found on the ESP 800 Mhz so far:

0-01-106 - unknown ambulance co, base is called "Schaumburg" by the mobiles, and the ambulance IDs are in the 850-870 series (the 8 is often dropped) - rigs frequent Sherman Hospital in Aurora, Loyola, etc. - could this be the old "Rescue Eight" (I can only find a "Rescue Medical Transport" in Arlington Heights in the on-line phone directories)

0-03-104 - Chicago Medicar!

0-03-157 - unknown ambulance co, operate primarily in the south / southwest suburbs, rigs ID in the 901-922 series so far.
0-03-158 - affiliated with above? their medicar ops?

0-05-245 - Superior Ambulance / IL Medicar / Norcom , Elmhurst (Base)
0-05-246 - " " " "
" (Mobiles)

0-08-104 - either medicar or student transport, probably Chicago

0-08-246 - unknown ambulance co., possibly a regional channel for Superior?? (Base)
0-08-247 - " " " " "
" " " " (Mobiles)

0-09-248 - Illinois Medicar Ch.___ , Elmhurst
0-09-248 - Illinois Medicar, possibly dedicated Chicago ID?

0-12-239 - Illinois Medicar Ch. 5, (alternate channel?), Elmhurst

0-13-212 - unknown medicar operation

0-16-086 - unknown ambulance (& medicar?) ops, north shore??

0-20-106 - unknown ambulance / medicar ops?

other confirmed finds of interest (?) include 0-18-152 (possibly Mini-Tankers mobile diesel fueling trucks?), 0-17-072 (Thrifty car rental / hotel shuttle bus / remote parking ops, Schiller Park), 0-11-157 (Papa T's Pizza and Ribs, 2439 W. 63rd, Chicago - fun to listen to the delivery drivers read customers' phone numbers to base, having base tell customers to "step out" for their orders - bad neighborhood?) - otherwise seems to be alot of piggyback/intermodal ops, trucking ops, bus / coach companies, auto service / tow ops. and the like).

Anyone else find anything else of interest with this system?

Topic: 184 Message: 184

VERY MINOR CORRECTION! The CRC is located on the NORTHWEST, not SOUTHWEST corner of 83rd/Janes Ave. in Woodridge. Also, when you get off I-355 at 75th St. west (turn right). Then go to Janes Ave, and turn left. Go approximately 2 miles, and the shopping center is on your right. The address for the CRC is 8274 Janes Ave., Woodridge. The phone # is 630-910-7027.

There has not been a fire station on 75th St. east of Janes Ave. for about 5 years. That building was sold, and is a Karate Studio/Korean Dry Cleaning business.

Hope to see ya'll there Friday evening around 7:00 pm

Will Sperling, Woodridge PD Youth Officer
and, your host at the Janes Ave. CRC

185. Mystery Chicago Ridge-area taxi company on LTR trunked system

Yahoo group: Chicago_Scanners
Date: 2001-01-30 01:06:08 UTC
From: n9mon@juno.com
Topic: 185 Message: 185

I'm trying to identify a taxi company from the Chicago Ridge / Oak Lawn area that I'm hearing using ID 0-18-051 on ESP Leasing's 800 Mhz LTR system. Regular "posts" include:

Fiddlers Elbow (bar) - 102nd & Ridgeland, Chgo. Ridge
Goal Post (bar) - 5200 W. 95th, Oak Lawn
B.G. Fellows (bar), 5000 block W. 111th, Alsip
Bourbon Street (?), not found in on-line directory
Desmonds (?)

They seem to take alot of folks to & from work at Best Foods (64th & Archer), Confectra (Confetra? Concentra??), and UPS.

Calls ranged from as far north Bedford Park / Stickney and as far south as Oak Forest, but calls seemed to be concentrated along Harlem Ave. - Fiddlers Elbow and Goal Post seemed to provide the most action as far as regular posts. They talked about a cab from "Standard" negatively, so I'm thinking this wouldn't be Standard. Other Oak Lawn / Chicago Ridge possibilities would be Garden, Oak Lawn, and White Top (all from Oak Lawn), and Chicago Ridge Cab. Best bet for nailing this ID would be to monitor the ID and hang outside Fiddlers or Goal Post. Anyone in the area with LTR capabilities that could help ID this one?

Thanks (and apologies for narrow casting) in advance,

I have a better idea. Go to the bar. Have a couple of beers. Politely ask the bartender to call you a cab. They normally have a number next to the phone that they call for their regulars.

Cab shows up, look at the name on the side :-)

187. Meeting Saturday

Yahoo group: Chicago_Scanners
Date: 2001-02-01 16:27:52 UTC
From: Rich Carlson, N9JIG
Topic: 187 Message: 187

Don't forget the CARMA Meeting this Saturday at a new location:

Home Run Inn Pizza, IL-62 (Algonquin Road) just east of Arlington Hts. Road, in Arlington Hts.
This is right off the NW Tollway, just take a right at the first light off of NB Arlington Hts. Road and the restaurant is on the left.

Get there between 11:00 AM and Noon, finish eating by 1:00 PM. We have the room till 4:00 PM

We will spend a few minutes discussing the new BC780XLT, as well as the usual meeting stuff.

Talk in is on 145.770.

Bring money (You have to buy lunch), a pocket scanner for the wireless mic, and any radios you might want to sell. Also, bring handouts for up to 60 people. Above all, have fun!

188. First Student school busses

Yahoo group: Chicago_Scanners
Date: 2001-02-03 02:03:11 UTC
From: n9mon@juno.com
Topic: 188 Message: 188

Does anyone know any details (garage locations, etc.) for "First Student" school bus company? I have confirmed their operations on IDs 0-12-188 and 0-16-188 of the ESP Leasing 800 Mhz LTR trunked system (but cannot find anything for them in IL in on-line phone directories). Sounds like they have garages in Chicago (possibly near 35th and Racine) and somewhere in the suburbs (Glen Ellyn area?). They provide bus service for Glenbard South High School, Glen Ellyn District 89, "St. James" (Glen Ellyn catholic school), as well as other suburban (and city?) schools. They also provide Pace bus service for around 6 or more routes starting at the Wheaton (UP) Metra train station. Any and all info appreciated, please reply in private...

From: bobf322@aol.com
Topic: 189 Message: 190

Oak Lawn pd ch 3 that has 2 correct answers it means IREACH 155.055 on there mobile radios and they use this quite a lot to bs on although this is against the IREACH rules (but they have a lot of towns use this as a bs FREQ within the same dept.)

In there uhf radios ch 3 is 470.7625 PL 141.3 and that is an unlicensed repeater that they have been using since at least 1985 when i found this out. they have a couple other FREQs that they use in the same manner I will have to look them up. Also this area has had a couple towns on unlicensed repeaters evergreen pk on 470.3375 141.3 PL they also had 1 on 471.1875 PL 141.3untill hometown got a license on that FREQ and forced them off. Alsip had one on 470.8375 PL 141.3 (they may have changed this) and they finally got a license on it about a year ago.

191. AirInc System Defined

Yahoo group: Chicago_Scanners
Date: 2001-02-09 03:38:06 UTC
From: Rich Carlson, N9JIG
Topic: 191 Message: 191

Scott and I went to O'Hare today and worked on the AirInc system. I plan on going there on Saturday to work on the City and other systems there.

I posted my results to http://www.n9jig.com/radio/trs/airInc.html. The fleet map we came up with was:

B0=S1
B1=S1
B2=S2
B3=S2
B4=S12
B5=S0
B6=S4
B7=S4

This seemed to work fine except I heard no traffic at all on Bank 1. Others have reported little activity on this bank as well.

Please advise if you have good results with this fleet map.

Topic: 194 Message: 197

Hi there Robyn welcome. My name is Bob and I live in the Alsip area and have been into communications for quite some time I would like to suggest a website that has a lot of info about this area.

http://www.theramp.net/shabec/carma.htm
this is the home page of CARMA the Chicagoland radio monitoring assoc. we are a bunch of wide interests in the hobby from pd & fire to railroad's aircraft and airshow monitoring. We have a very active e mail list that I recommend there are experts on all sides here. I work for IDOT (ill dept. of transportation) in communications so i know quite a bit about that system here is some info on our system

As we are now in to winter I thought that this would be a good time to Review the FREQs and usage's for IDOT District 1 which is responsible for state roads in Cook, DuPage, Lake, McHenry, Will, and Kane counties. The maintenance FREQs are more or less broken down by counties.

IDOT District 1 FREQs:
1) 150.995, maint for Cook & DuPage
2) 151.070, maint for S Cook & Will
3) 151.100, maint for N Cook, Lake & McHenry
4) 453.700, ETP emergency traffic patrol
5) 453.250, data for Kennedy reversible lanes
6) 453.150, Cook Co sign shops & misc. units
7) 453.300, Cook except I57,Bishop Ford & 394
8) 453.400, Kane maint & I290/IL53,Elgin/O'Hare
9) 453.200, backup repeater also portables

VHF PL's are 131.8, except F3 (D023) UHF PL's are 151.4

Notes F1 & F8 are hard wired patched at the comparator so they are always patched together.
F5 is only used for data for the Kennedy reversible lane system.
All FREQs can be patched with any other FREQ as needed (depending upon conditions and ComCenter staffing) at the operator consoles.
ETP (Emergency Traffic Patrol) also known as "Minutemen" patrol the core expressways (Kennedy, Edens, Dan Ryan, Stevenson, I-57 & the Bishop Ford), to assist motorists and clear accidents from the roadways to keep traffic flowing as quickly as possible.

ETP patrol assignments
1 Lake Ave 0n the Edens to Addison on the Kennedy
2 Mannheim to North on the Kennedy
3 Lawrence to Polk on the Dan Ryan & the Ohio feeder
4 North Ave to 35th on the Dan Ryan
5 Lake St. to 55th (local lanes)

6 Canalport to 71st (express lanes & China town feeder)
7 Ryan @ 51st to I 57 @ 127th
8 Ryan @ 51st to Bishop Ford @ 147th
9 IKE Wells to Laramie
10 IKE Cicero to Mannheim
11 I 55 lake shore drive to Cicero
12 I 55 Damen to first Ave.

Most Maintenance units have either a VHF orUHF Maxtrac radio (depending upon their primary freq.) and foreman may have both radios to facilitate communications with adjacent yards. ETP trucks have an UHF Maxtrac (F4 primary freq.) and a 800 MHz EDACS radio to coordinate with IL State Police District Chicago, as well as a lowband radio with the ISP statewide 42.50 MHz freq. The ETP foreman have these radios as well as a VHF Maxtrac with all maint FREQs as well as a Foreman only freq. of 154.650 and 154.220 (Chicago Fire F3 admin. Coordination with CFD is handled thru a patch repeater on the North side of Chicago). This repeater links 154.220 (156.7 PL simplex) (which all CFD units have) to a talk group on the ISP District Chicago EDACS trunked system. The IDOT system supports MDC1200 selective signaling (which is a quick data burst which can be described as a "squashed duck" sound) to blow the horn on the truck if the driver is working outside. If you listen to F3 (151.100) without the DPL tone you will sometimes hear a different data signal especially at dawn & dusk, this data is used to turn on & off the expressway overhead lighting when daylight falls below a minimum point as determined by light sensors in the District. In the rest of the state, IDOT communications are on lowband with each district being assigned 2 FREQs. The base freq. F1 is used to contact the district HQ and the mobile F2 freq. is used for truck to truck as well as truck to the local maint yard. Foreman also have 42.50 to contact ISP statewide. Station 1 is the main dispatch center in Springfield. Station 1 and District 1 in Schaumburg are manned 24 hours a day 7 days a week, the other Districts are not during off hours. Station 1 has the ability to access any IDOT freq. in the state via phone lines and serves as emergency dispatch when a District office is closed. Station 1 also is responsible for updating the road condition hotline which is updated with info from the local Districts every 2 hours during winter storms (800-452-IDOT) District 1 has a local number for information of 312-DOT-INFO. When units call in road conditions they use this format:

Code 1 free of snow & ice
Code 2 scattered snow & ice
Code 3 25% snow or ice covered
Code 4 50% snow or ice covered
Code 5 75% snow or ice covered
Code 6 100% snow or ice covered

IDOT LOW BAND FREQUENCY PLAN
Base Mobile PL HQ District #
47.34 47.14 123.0 Dixon 2
47.02 47.10 123.0 Ottawa 3
47.06 47.18 123.0 Peoria 4
47.34 47.14 110.9 Paris 5

47.38 47.30 110.9 Springfield 6
47.06 47.18 110.9 Effingham 7
47.02 47.10 110.9 Fairview Hts8
47.38 47.30 123.0 Carbondale 9

New notes ETP units are having there low band radios removed and replaced with VHF high band radios with IDOT VHF FREQs as well as NIFERN 154.265 ISP hf4 155.46 CFD admin 154.22 IREACH 155.055

If you have any questions e mail me direct my interests lie in the state police & local pd & fire as well as airshow's (love hearing the thunderbirds & blue angles air to air during shows)

have a good 1
Bob

There is a possibility that they are using the ESP Leasing 800 Mhz trunked system at Sears Tower (LTR format, IDs 0-03-157 and 0-03-158) - I think this is either Trace or Daley's/CoMed, but can't be positive without going down there to do a little detective work.....

Let me know if you have a trunktracker scanner that will handle LTR trunking, and I'll pass along the system particulars.

203. Lake Forest Frequencies

Yahoo group: Chicago_Scanners
Date: 2001-03-04 05:53:18 UTC
From: sbarry@interaccess.com
Topic: 203 Message: 203

Hi ALL,

I'm kind of new at this, but does anyone know the police and fire frequencies for Lake Forest, Illinois?

Also, is there an internet guide or data base with this information?

Thanks in advance,

Barry

204. Re: [Chicago_Scanners] Lake Forest Frequencies

Police is 155.730, Fire is 154.430, PW is 153.860.

There are several resources, including Police Call (From Radio Shack), ScannerMaster (1800-722-6701) or the CARMA Mailing list and Web Page (http://www.theramp.net/shabec/carma.htm)

Hi Robyn,

I live in Lockport and I do not know of any groups out our way
but.....go to the CARMA site. They have meetings out our
way....unfortunately, I haven't made one yet but they are GREAT! Tons
of good info at their site. What type of unit(s) are you scanning
with? What are your primary interests?

207. Repeater voting system testing on 156.210

Yahoo group: Chicago_Scanners
Date: 2001-03-06 22:02:35 UTC
From: n9mon@juno.com
Topic: 207 Message: 207

Hearing weak repeater voting system right now on 156.210, mentions of the following sites: "Oak Tree", "Fischer" ("Fischer Crane"?), and "Station 3". Anyone familiar with these location references for Lake Co., IL (or anywhere else, for that matter)? some kind of MDC tones at beginning of transmissions, two techs, believe one is at the "EOC". Is this Lake Co (IL)? Some other agency?

From: n9mon@juno.com
Topic: 209 Message: 209

This cwid here is KJK731, licensed to the village of Bolingbrook - my notes show that it repeats 153.980, and my BC780 shows a 156.7 pl (same tone as their 155.325 FD repeater). It is part of a 5/2000 license mod that added this repeater pair and appears to have changed their 156.150 detective freq to 156.135 - the license also covers their 155.250 PD repeater (the pl tone seem to possibly indicate FD use, but all of the other freqs covered by the license are PD).

This one seems to merit further watching....

Sounds like Bolingbrook's squelch on their PD radios. They have an Oak Tree Subdivision and if my memory serves correct, they have a station 3. The FCC license shows Bolingbrook public safety for 3 new freqs., and that's one of them.
They had a tone go off around 5:00pm that I thought would take out my ear drums. Testing and adjsting console, mobile and portable.

215. Burr Ridge PD Radio Designation on SWCD 476.7375 May 1st

Yahoo group: Chicago_Scanners
Date: 2001-03-09 14:23:42 UTC
From: Will Sperling
Topic: 215 Message: 215

I was able to find out the tentative radio designation(s) for Burr Ridge PD when they switch over to Southwest Central Dispatch (SWCD) center on May 1st, 2001. They are currently on 470.5125 Mhz. along with Darien and Lisle PD's, dispatched by Darien Area Dispatch Center (DADC).

When the switch over takes place, they will be on SWCD "Net Nine," which is 476.7375 Mhz. They will also be vacating the ALERTS mobile data terminal system (currently Burr Ridge PD is Dept. 332), and will have MDT's on the SWCD exclusive MDT system.

Here are the radio designations that will be used on May 1st:

4400's Patrol Officers
4500's Corporals
4600's Sergeants

As of this writing I have no idea where the Chief of Police or his admin. personnel will be ID'ed on the radio.

SWCD Net Nine (476.7375 Mhz) currently has:

Willowbrook PD 1500's
Lemont PD 3800's
Clarendon Hills 4000 thru 4099

If/when I get any further info, I'll pass it along to the listserv(s).

MIDWEST GRANT PAGES ARE BACK!!

The latest FCC License Grants for Illinois, Indiana, Wisconsin and
Michigan week ending March 10, 2001 is now available for viewing online
or downloading. Point your browsers to

http://ilgrant.home.att.net

to get the latest information on new and modified licenses.

NOTICE:
If you are also viewing Rich McVicar's output, you may see some
differences compared to the output generated for the Grant Pages.
They are...

Administrative updates are no longer included in the
outputs. (i.e. Letter of renewals, internal duplicates, purges,
conversions to ULS, user applied updates.)

Included in the outputs are renewals, modifications, printed
authorizations, license issued.

Still working out some bugs, so some info may not be in the outputs.
This is most notable in licenses for mobile use only.

Questions, comments and suggestions are always welcome.

A lot of traffic at this time. Radio callsigns in 3600's...dispatch being called "radio" and "county radio." Sounds like warrent service. Checking state DL's/ID's and interviewing.....far southside of Chicago...Checked VHF Cook Co. Channels and it's not a simulcast.

226. Alinco Dual-Bander DR-599T Assistance

Yahoo group: Chicago_Scanners
Date: 2001-03-23 00:35:46 UTC
From: Will Sperling
Topic: 226 Message: 226

A friend of mine who will have his ham license in a short while owns an Alinco DR-599T dual-band 2 meter / 440 Mhz mobile. There is a port on the back of the main unit (it's got a remotable head) where you can attach an 800 Mhz antenna to receive in that band. He placed the proper Alinco jack on the back of the set, and ran the center conductor to the 800 Mhz trace on the circuit board, and ground to the other antenna ports' trace. The radio will receive, but only when it's about 10 feet from the 800 Mhz transmitting source, so obviously, it's not attached to the circuit board properly.

If anyone has knowledge regarding this 800 Mhz receive mod for the Alinco DR-599T, please email Erik Swanson directly @ chfd0392@.... Thanks in advance!

227. Behind Closed Doors: O'Hare Airport

Yahoo group: Chicago_Scanners
Date: 2001-03-24 05:57:34 UTC
From: n9mon@juno.com
Topic: 227 Message: 227

Just a heads up that tonite's episode of A&E's "Behind Closed Doors with Joan Lunden" (Saturday 6-7PM central) will feature (in part) a behind-the-scenes look at Chicago's O'Hare Airport. Episodes airing in the next month will include features on US Army Tank School, GM future vehicle design, the FBI's hostage rescue team, and the FedEx hub in Tennesse. See http://www.aande.com for dates and times.

From: Will Sperling
Topic: 227 Message: 228

Aside from the makeup, glamor, and glitz of Joan Lunden's expose of O'Hare, I found the segment most interesting. There's a heck of a lot of activity "behind closed doors," and the viewer was able to catch a glimpse or two of the various complex workings of "the world's busiest airport!"

230. ATI Ambulance, ESP Leasing's Sears 800 LTR TRS update

Yahoo group: Chicago_Scanners
Date: 2001-03-28 01:28:50 UTC
From: n9mon@juno.com
Topic: 230 Message: 230

Confirmed ATI Ambulance (ID 0-16-086, unit in the low 405-425? range) on ESP Leasing's Sears 800 Mhz LTR TRS. Chicago phone book indicates that they are out of Tinley Park, but ops here seem primarily Chicago (maybe another ID in use as well for ops outside the city?)

231. Reliable Scanner Repair - G&G Communications

Yahoo group: Chicago_Scanners
Date: 2001-04-01 21:11:08 UTC
From: Will Sperling
Topic: 231 Message: 231

Recently, a question came up in regards to a reliable place to send scanners in for repair.

I have been dealing with Gerry of G&G Communications for all kinds of scanner repairs. He has lots of good used scanners, parts, & accessories, too.

The radios he won't repair are AOR scanners, older Uniden Bearcats and Regencies, and some ancient antiques due to the lack of availability of parts.

PROGRAMMABLE SCANNERS: $45.00 Plus Parts Plus Shipping; CRYSTAL SCANNERS: $30.00 Plus Parts Plus Shipping; PAGERS: $25.00 Plus Parts Plus Shipping; SCANNER & PAGER ESTIMATES: $12.00 Includes Return Shipping.

G&G Communications
7825 Black Street Rd.

233. Reminder, Carma Meeting Saturday April 7

Yahoo group: Chicago_Scanners
Date: 2001-04-04 16:03:39 UTC
From: Rich Carlson, N9JIG
Topic: 233 Message: 233

This is a reminder of the upcoming CARMA General Meeting on:

Saturday April 7th, 2001
11:30 AM for Lunch, 1:00 PM for the meeting start

at

Phillies Pizza,
63rd & Kingery Hwy (IL-83)
Willowbrook IL.

From I-55 go north on Kingery Hwy (IL-83) to 63rd St., and turn west.
At the next traffic signal turn left into the Dominick's shopping
center. Phillies is at the far west end of the center.

From I-294 North get off at Ogden Av. (US-34) and head west to IL-83.
Go South to 63rd St., and turn right (west) to the next signal and
into the shopping center.

See the map and details at http://www.theramp.net/shabec/carma.htm.

Other important dates to remember:

May 4, 2001 Friday Nighter, Woodridge CRC
Jun 2, 2001 Regular CARMA Meeting, Location to be determined
Jun 23, 2001 Annual CARMA Picnic, Shoe Factory Woods, Hoffman Estates
Jul 6, 2001 Friday Nighter (Tentative Date)
Aug 4, 2001 Regular CARMA Meeting
Sep 7, 2001 Friday Nighter (Tentative Date)
Oct 6, 2001 Regular CARMA Meeting
Nov 2, 2001 Friday Nighter (Tentative Date)
Dec 8, 2001 Regular CARMA Meeting

All are welcome at all events. CARMA has no dues or other fees except
the restaurants we meet at require each attending to purchase a meal.

Please come and enjoy the company and discussion.

If you like scanners you will love the meeting!

We all have a great lunch, then have a roundtable to talk about various
subjects relating to scanners, specifically in the Chicago area.
Frequencies, new equipment and more are discussed. Some guys bring radios
or accessories to sell, others bring handouts to pass around.

Beginners are VERY WELCOME. We were all beginners once so are very willing to help someone learn more about all the different sides of the hobby. And don't be shy about asking any question as we usually have a wide assortment of people to answer. Just because you are a beginner does not mean that you do not have info that the rest of us don't know.
Hope to see you and any other new people
Bob

241. Weather alerts via pager for free?

Yahoo group: Chicago_Scanners
Date: 2001-04-14 02:24:26 UTC
From: n9mon@juno.com
Topic: 241 Message: 241

Is anyone aware of any service offering weather alerts (area and type selectable by user) sent via email for free? I would like to get Chicago-area weather watch and warning statements sent to my alphanumeric pager (via e-mail), but only if the service is free. There are more than a few services that do this for a fee....

Off topic penalty - 162.550 Mhz, KWO39, NOAA weather radio Chicago

Thanks in advance,
Kevin O'Rourke n9mon@...

243. HTs in use at IL toll plaza

Yahoo group: Chicago_Scanners
Date: 2001-04-19 21:18:58 UTC
From: n9mon@juno.com
Topic: 243 Message: 243

While driving thru the 163rd St. toll plaza on the 294 today, I observed a lane walker with a HT antenna and coil cord Moto mic sticking out of a pocket of his orange jumpsuit. The antenna on the HT appeared to be a typical 6" (or so) UHF 1/4 wave "duckie". Has anyone ever confirmed freqs in use just for toll plaza ops? About 10 years ago or so, I observed an 5/8 wave UHF mobile antenna affixed to the top of a manual lane "booth" and always wondered if it was in active use or just a left-over from the days when the tollway used 453.xxx Mhz freqs for it's police and maintainence ops (up until the late 70's / early 80's, I believe). I did a quick check of ISTHA licenses, and the only current license covering UHF freqs is for the weather stations, which transmit their data on 453. / 458.9875 (and the emissions listed on that license are digital, not analog). There is always the possibility that this was a 6" 800 Mhz antenna (I have one on an MTX810, very deceiving). Maybe they're using one of their old UHF freqs in these radios? Anyone with friends at the tollway??

An old Streets and San freq list I have shows "Skyway Tower" using F4 (453.825). Can anyone confirm which freq they currently use for their operations? Also, I don't remember ever seeing anything in print re: which police agency patrols the Skyway (CPD, I assume) and what freq(s) are used for this purpose, does anyone know for sure?

250. Prime VHF "Secret Squirrel" Spectrum?

Yahoo group: Chicago_Scanners
Date: 2001-05-12 13:45:11 UTC
From: n9mon@juno.com
Topic: 250 Message: 250

A good friend reports that a west suburban FD's radios have recently been programmed with 157.775 (carrier squelch) with the description "Lemont / Argonne Fireground" (possibly taking the place of the 154.955 channel with similar use description previously reported?). 157.775 is in the range of spectrum previously allotted for VHF mobile telephone service (the precursor to cellular telephone). Here are the ranges for that VHF phone service:

Base freqs (many now used for paging): 152.030 - 152.210, 152.510 - 152.810
Mobile freqs (better candidates for unlicensed use): 157.770 - 158.070, 158.490 - 158.670

Does anyone else have any notes of two-way use in the ranges? Might be good spectrum to keep an eye on, made all the easier with scanners (PRO-2042, etc.) that have "chainable" search banks...

Kevin n9mon@...

252. Important CARMA Meeting Announcement

Yahoo group: Chicago_Scanners
Date: 2001-05-20 02:18:32 UTC
From: Rich Carlson, N9JIG
Topic: 252 Message: 252

The August CARMA Meeting Date has been changed to Saturday August 11.
It will remain at Phillies Pizza, 63rd and Kingery in Willowbrook.

The June 2nd CARMA Meeting will be at Home Run Inn, Route 62 east of
Arlington Hts. Road, in Arlington Hts. Remember that the restaurant
has promised a special treat for us due to the situation that
occurred a couple months ago.

All CARMA Meetings start at 1:00 PM, but meals are served from 11:30
to 1:00 PM. YOU MUST BUY LUNCH!!!

The next Friday Nighter will be at the Woodridge CRC on July 6th.

Friday Nighters start at 7:00 PM, but most of us arrive at the
adjoining pizza place about 5:30 to 6:00 for eats (optional).

The 2001 CARMA Picnic will be Saturday June 23rd at Shoe Factory
Woods in Hoffman Estates.

The Picnic starts whenever people arrive and ends when the last guy
leaves. Please do not bring glass bottles and consume any adult
beverages at least 200 feet from the roadway. No longwire antennas
allowed across the bridal path.

Bring your own food and beverages, or perhaps Chicken One will ride again.

256. Kane County Cougars, other 151 Mhz "bizband"

Yahoo group: Chicago_Scanners
Date: 2001-06-05 01:45:44 UTC
From: n9mon@juno.com
Topic: 256 Message: 256

Went to the Kane County Cougars game yesterday at their home field in Geneva (Elfstrom (sp?) Field, Kirk Rd. south of IL Rt. 38). I found the following freq to be in active use there:

151.715 (82.5 pl) - Concessions ops.
151.805 (94.8 pl) - Security, first aid, stadium / team ops.
154.570 (167.9 pl) - Parking ops.

the following freqs have been reported either as being used or programmed into their radios in the past, but were not monitored in use:

151.565 (9/99)
151.865 (9/99)
154.600 (stadium ops, date unknown, probably out of service)

in addition, I monitored what sounded like a repeater (or a fixed base with what sounded like an extended "hang time") on 151.805 - signal was not all that strong, and sounded like it might have been a college or university or other type of school or similar institution. Did a 25 mile radius of this freq (using the stadium as the radius center point) on the FCC license site and found only two schools licensed - Hinsdale Dist. 86 and Riverside-Brookfield HS - I somehow doubt that it was either one of them. Any ideas?

Just monitored the orange Monster.com blimp using 123.300 (2:00 PM Friday 7/13) to coordinate with their technical ground crew at Wrigley field. They are providing an aerial camera for WGN's coverage of today's Cubs - Sox game.. Also monitored "Winstar" or "Windstar" calling Monster.com on this freq (possibly another blimp?) - by the time Monster.com got back to them, they had left the frequency....

See Lightship's website at http://www.lightships.com/index2.html
click on "our clients" and "photo gallery" for a partial list of their advertising blimps and some cool pix...

Topic: 264 Message: 264

I thought you would be interested in knowing about this computer Internet Worm... Name: CodeRed Characteristics: UPDATE July 19, 2001, AVERT is raising awareness of this worm with a Risk Assessment on this exploit as SPECIAL. We are doing so as our focus is on providing security support to our customers and the computing public at large. Your environment is at HIGH RISK if: 1) You have Microsoft Index Server 2.0, or Indexing Service installed with Windows 2000 or IIS. 2) You have NOT updated these components with the latest patch from Microsoft available here. The exploit, a buffer overflow, is used to spread this worm (Unchecked Buffer in Index Server ISAPI Extension Could Enable Web Server Compromise). IT EXISTS IN MEMORY ONLY AND NO WRITTEN FILE EVER EXISTS ON THE HARD DISK. It spreads through TCP/IP transmissions on port 80. By making use of this exploit, the worm is able to send itself as a TCP/IP stream directly to the its victims, which in turn scans the web for other systems to infect. Once infected, this viral code checks for the existence of C:\notworm. If the file C:\notworm is present the worm stops seeking other machines to infect. Affected English language web servers have its web pages defaced with: HELLO! <bady>
Welcome to http://www.worm.com !

Hacked By Chinese! To check your system for this Internet Worm, and to learn how to protect yourself from computer viruses, visit the McAfee.com Clinic at http://clinic.mcafee.com/clinic/ibuy/campaign.asp? cid=2103. For complete information on this Internet Worm, view McAfee.com's Virus Information Library listing at http://vil.mcafee.com/dispVirus.asp?virus_k=99142.

(I would like to digress a minute and thank Microsoft for the 3 hour setback. In thier infinite wisdom, they decided that their updated drivers that came with Office 2000 would work better with my FCC data extraction program than the old, working drivers. Be careful with the upgrades people!)

The latest FCC License Grants for Illinois, Indiana, Wisconsin, Michigan and Missouri week ending Aug. 4, 2001 is now available for viewing online or downloading. Point your browsers to

http://ilgrant.home.att.net

to get the latest information on new and modified licenses from the Private Land Mobile Service section of the ULS.

Questions, comments and suggestions are always welcome!!

I am looking for any "secret" or non-published frequency info
for the near south police departments.Oak lawn,Chicago Ridge,
this general area.
Most of these departments have multi-channel radios and all
I have are the basic dispatch channels.I do know that NEXTELL
is a major player for many.But what are all the extra channels
in the radios for? Looked and asked everywhere... anyone help?

275. another list

Yahoo group: Chicago_Scanners
Date: 2001-09-04 00:38:05 UTC
From: nomanual@home.com
Topic: 275 Message: 275

Received an email the other day from another list member who was requesting a copy of a manual for a ICOM U-16 programmable radio. Hum, I have them. Since this radio was from the 80's, I wasn't sure if he was even sure he had the right radio/model.

Anyhow, I scanned a few pages from the manual and put them on a list called: nomanual@yahoogroups.com

Had no intention of starting a new group, let alone even thinking of any outcome from this posting. Since I woke up this am, there have been 30 members join this groups, so I guess its here to stay.

Feel free so sign up and post, and help the rest of the world.

Rick

Hey Bill! From your signature I see you own a camera . What are the chances of buying a picture of BIG MO. Or LITTLE MO . My dad was a electrician and a fire alarm repairman for Chicago for 20 + years. For his 92 birtday it would be neat . Any pictures of the Englewood fire alarm office ? Inside or out? Thanks for any help!

281. Money Maker! (as seen on TV)

Yahoo group: Chicago_Scanners
Date: 2001-09-23 03:59:12 UTC
From: J J
Topic: 281 Message: 281

DO NOT DELETE IF YOU HAVEN'T READ THIS. THIS IS A ONE TIME MAILING.
This program is for real. And it works no matter which country you live in (read the testimonials at the end of this message). Read on and you will be convinced. It would only take 2 minutes.

Dear Friends & Future Millionaire:

AS SEEN ON NATIONAL TV:
Making over half million dollars every 4 to 5 months from your home for an investment of only $25 U.S. Dollars expense one time

Step by Step Instructions are enclosed to insure your success with this program. Please take the 2 minutes it takes to read this letter.

THANK'S TO THE COMPUTER AGE AND THE INTERNET !
==========

BE A MILLIONAIRE LIKE OTHERS WITHIN A YEAR!!!

Before you say ''Bull'', please read the following. This is the letter you have been hearing about on the news lately. Due to the popularity of this letter on the Internet, a national weekly news program recently devoted an entire show to the investigation of this program described below, to see if it really can make people money. The show also investigated whether or not the program was legal.

Their findings proved once and for all that there are ''absolutely NO Laws prohibiting the participation in the program and if people can -follow the simple instructions, they are bound to make some mega bucks with only $25 out of pocket cost''. DUE TO THE RECENT INCREASE OF POPULARITY & RESPECT THIS PROGRAM HAS ATTAINED, IT IS CURRENTLY WORKING BETTER THAN EVER.

You are supplying information for a small fee- People will request from you copies of all reports many times over. This is a cash business better than a Mc ee D.!!!!!
Each report will give you the information you will need to succeed.

This is what one had to say: '' Thanks to this profitable opportunity. I was approached many times before but each time I passed on it. I am so glad I finally joined just to see what one could expect in return for the minimal effort and money required. To my astonishment, I received total $610,470.00 in 21 weeks, with money still coming in''. Pam Hedland, Fort Lee, New Jersey.

==========
Here is another testimonial: ''' this program has been around for a long time but I never believed in it. But one day when I received this again in the mail I decided to gamble my $25 on it. I followed the simple instructions and walaa ..... 3 weeks later the money started to come in. First month I only made $240.00 but the next 2 months after that I made a total of $290,000.00. So far, in the past 8 months by re-entering the program, I have made over $710,000.00 and I am playing it again. The key to success in this program is to follow the simple steps and NOT change anything.'' More testimonials later but first,

========== PRINT THIS NOW FOR YOUR FUTURE REFERENCE ==========

$$$

===
Within a few days you will receive, vie e-mail, each of the 5 reports from these 5 different individuals. Save them on your computer so they will be accessible for you to send to the 1,000's of people who will order them from you. Also make a floppy of these reports and keep it on your desk in case something happen to your computer.

===
IMPORTANT __ DO NOT alter the names of the people who are listed next to each report, or their sequence on the list, in any way other than what is instructed below in step '' 1 through 6 '' or you will lose out on majority of your profits. Once you understand the way this works, you will also see how it does not work if you change it. Remember, this method has been tested, and if you alter, it will NOT work !!! People have tried to put their friends/relatives names on all five thinking they could get all the money. But it does not work this way. Believe us, we all have tried to be greedy and then nothing happened. So Do Not try to change anything other than what is instructed. Because if you do, it will not work for you. Remember, honesty reaps the reward!!!

1.... After you have ordered all 5 reports, take this advertisement and REMOVE the name & address of the person in REPORT # 5. This person has made it through the cycle and is no doubt counting their fortune.

2.... Move the name & address in REPORT # 4 down TO REPORT # 5.

3.... Move the name & address in REPORT # 3 down TO REPORT # 4.

4.... Move the name & address in REPORT # 2 down TO REPORT # 3.

5.... Move the name & address in REPORT # 1 down TO REPORT # 2

6.... Insert YOUR name & address in the REPORT # 1 Position.

PLEASE MAKE SURE you copy every name & address ACCURATELY!
==========

**** Take this entire letter, with the modified list of names, and save it on your computer. DO NOT MAKE ANY OTHER CHANGES.

Save this on a disk as well just in case if you lose any data. To assist you with marketing your business on the internet, the 5 reports you purchase will provide you with invaluable marketing information which includes how to send bulk e-mails legally, where to find thousands of free classified ads and much more. There are 2 Primary methods to get this venture going:

METHOD # 1: BY SENDING BULK E-MAIL LEGALLY

==========

Let's say that you decide to start small, just to see how it goes, and we will assume You and those involved send out only 5,000 e-mails each. Let's also assume that the mailing receive only a 0.2% response (the response could be much better but lets just say it is only 0.2%. Also many people will send out hundreds of thousands e-mails instead of only 5,000 each). Continuing with this example, you send out only 5,000 e-mails.

With a 0.2% response, that is only 10 orders for report # 1. Those 10 people responded by sending out 5,000 e-mail each for a total of 50,000. Out of those 50,000 e-mails only 0.2% responded with orders.

That's=100 people responded and ordered Report # 2.

Those 100 people mail out 5,000 e-mails each for a total of 500,000 e-mails.
The 0.2% response to that is 1000 orders for Report # 3.

Those 1000 people send out 5,000 e-mails each for a total of 5 million e-mails sent out.
The 0.2% response to that is 10,000 orders for Report #4.

Those 10,000 people send out 5,000 e-mails each for a total of 50,000,000 (50 million) e-mails.
The 0.2% response to that is 100,000 orders for Report # 5
THAT'S 100,000 ORDERS TIMES $5 EACH=$500,000.00 (half million).

Your total income in this example is: 1..... $50 + 2..... $500 + 3.....$5,000 + 4..... $50,000 + 5..... $500,000 ..... Grand Total=$555,550.00

NUMBERS DO NOT LIE. GET A PENCIL & PAPER AND FIGURE OUT THE WORST POSSIBLE RESPONSES AND NO MATTER HOW YOU CALCULATE IT, YOU WILL STILL MAKE A LOT OF MONEY !

==========
REMEMBER FRIEND, THIS IS ASSUMING ONLY 10 PEOPLE
ORDERING OUT OF 5,000 YOU MAILED TO. Dare to think for
a moment what would happen if everyone or half or even
one 4th of those people mailed 100,000 e-mails each or
more? There are over 150 million people on the
Internet worldwide and counting. Believe me, many
people will do just that, and more!

METHOD # 2 : BY PLACING FREE ADS ON THE INTERNET
==========
Advertising on the net is very very inexpensive and
there are hundreds of FREE places to advertise.
Placing a lot of free ads on the Internet will easily
get a larger response. We strongly suggest you start
with Method # 1 and add METHOD # 2 as you go along.
For every $5 you receive, all you must
do is e-mail them the Report they ordered. That's it.
Always provide same day service on all orders.

This will guarantee that the e-mail they send out,
with your name and address on it, will be prompt
because they can not advertise until they receive the
report.

========== AVAILABLE
REPORTS==========

ORDER EACH REPORT BY ITS NUMBER & NAME ONLY. Notes:
Always send $5 cash (U.S. CURRENCY) for each Report.
Checks NOT accepted. Make sure the cash is concealed
by wrapping it in at least 2 sheets of paper. On one
of those sheets of paper, Write the NUMBER & the NAME
of the Report you are ordering, YOUR E-MAIL ADDRESS
and your name and postal address.

PLACE YOUR ORDER FOR THESE REPORTS NOW :
==========
REPORT # 1 : ''The Insider's Guide to Advertising for
Free on the Net''
Order Report # 1 from:

Teresita Santos
1-7 Row House Rawis
Don Bosco, Tondo Manila
Philippines 1012

REPORT # 2 : ''The Insider's Guide to Sending Bulk
e-mail on the Net''
Order Report # 2 from :

Bianca Elaine
c/o Joy Casanova
35 India St., Better Living Subd.
Paranaque City
Philippines 1711

REPORT # 3 : ''The Secret to Multilevel marketing on
the net''
Order Report # 3 from:

Kris H. Webber
Sankt Hansgade 24,3th.
Copenhagen 2200
Denmark

REPORT # 4 : ''How to become a millionaire utilizing
MLM & the Net''
Order Report # 4 from:

J Profit
P.O.Box 38333
Greensboro,NC 27438-8333
USA

REPORT # 5 : ''HOW TO SEND 1 MILLION E-MAILS FOR
FREE''
Order Report # 5 from:

Auralyn Joy
c/o Maximo L. Quijano
2262 Road 3
San Andres Bukid
Manila City
Philippines 1017

$$$$$$$$$ YOUR SUCCESS GUIDELINES $$$$$$$$$$$

Follow these guidelines to guarantee your success:

=== If you do not receive at least 10 orders for
Report #1 within 2 weeks, continue sending e-mails
until you do.

=== After you have received 10 orders, 2 to 3 weeks
after that you should receive 100 orders or more for
REPORT # 2. If you did not, continue advertising or
sending e-mails until you do.

=== Once you have received 100 or more orders for Report # 2, YOU CAN RELAX, because the system is already working for you, and the cash will continue to roll in ! THIS IS IMPORTANT TO REMEMBER: Every time your name is moved down on the list, you are placed in front of a different report.

You can KEEP TRACK of your PROGRESS by watching which report people are ordering from you. IF YOU WANT TO GENERATE MORE INCOME SEND ANOTHER BATCH OF E-MAILS AND START THE WHOLE PROCESS AGAIN. There is NO LIMIT to the income you can generate from this business !!!

==========

FOLLOWING IS A NOTE FROM THE ORIGINATOR OF THIS PROGRAM:
You have just received information that can give you financial freedom for the rest of your life, with NO RISK and JUST A LITTLE BIT OF EFFORT. You can make more money in the next few weeks and months than you have ever imagined.

Follow the program EXACTLY AS INSTRUCTED.
Do Not change it in anyway. It works exceedingly well as it is now. Remember to e-mail a copy of this exciting report after you have put your name and address in Report #1 and moved others to #2 .....# 5 as instructed above. One of the people you send this to may send out 100,000 or more e-mails and your name will be on every one of them. Remember though, the more you send out the more potential customers you will reach. So my friend, I have given you the ideas, information, materials and opportunity to become financially independent. IT IS UP TO YOU NOW!

========== MORE TESTIMONIALS==========

'' My name is Mitchell. My wife, Jody and I live in Chicago. I am an accountant with a major U.S. Corporation and I make pretty good money. When I received this program I grumbled to Jody about receiving ''junk mail''. I made fun of the whole thing, spouting my knowledge of the population and percentages involved. I ''knew'' it wouldn't work. Jody totally ignored my supposed intelligence and few days later she jumped in with both feet. I made merciless fun of her, and was ready to lay the old ''I told you so'' on her when the thing didn't work. Well, the laugh was on me! Within 3 weeks she had received 50 responses. Within the next 45 days she had received

total $ 147,200.00 ..... all cash! I was
shocked. I have joined Jody in her ''hobby''. Mitchell
Wolf M.D., Chicago, Illinois
==========
'' Not being the gambling type, it took me several
weeks to make up my mind to participate in this plan.
But conservative that I am, I decided that the initial
investment was so little that there was just no way
that I wouldn't get enough orders to at least get my
money back''. '' I was surprised when I found my
medium size post office box crammed with orders. I
made $319,210.00 in the first 12 weeks. The nice thing
about this deal is that it does not matter where
people live. There simply isn't a better investment
with a faster return and so big''. Dan Sondstrom,
Alberta, Canada
==========
'' I had received this program before. I deleted it,
but later I wondered if I should have given it a try.
Of course, I had no idea who to contact to get another
copy, so I had to wait until I was e-mailed again by
someone else.....11 months passed then it luckily
came again..... I did not delete this one! I made
more than $490,000 on my first try and all the money
came within 22 weeks''. Susan De Suza, New York, N.Y.
==========
'' It really is a great opportunity to make relatively
easy money with little cost to you. I followed the
simple instructions carefully and within 10 days the
money started to come in. My first month I made $
20,560.00 and by the end of third month my total cash
count was $ 362,840.00. Life is beautiful, Thanx to
internet''. Fred Dellaca, Westport, New Zealand
==========

ORDER YOUR REPORTS TODAY AND GET STARTED ON YOUR ROAD
TO FINANCIAL FREEDOM!

==========
If you have any questions of the legality of this
program, contact the Office of Associate Director for
Marketing Practices, Federal Trade Commission, Bureau
of Consumer Protection, Washington, D.C.

284. Corrected CARMA 2002 Meeting Schedule

Yahoo group: Chicago_Scanners
Date: 2001-10-10 03:32:18 UTC
From: Rich Carlson, N9JIG
Topic: 284 Message: 284

Here is the ***CORRECTED*** 2002 Meeting Schedule. Please double check your notes from the meeting, as a couple dates may have been misread and I made a mistake on the post from the other day.

Also, I have reserved the room at Phillies for each of the 2002 dates. If we get some other site in the northern area that would work for us we can always change a date or 2 to test it out. We have heard little from members that would move us from Phillies.

Regular Meetings (Phillies Pizza, Willowbrook IL):

December *8*, 2001 (Not the 6th!)
February 2, 2002
April 6, 2002

288. Alinco DJX2000T

Yahoo group: Chicago_Scanners
Date: 2001-11-25 14:40:11 UTC
From: ChicagoStretch@AOL.com
Topic: 288 Message: 288

I am interested in getting a Alinco DJX2000T. I have a few questions .Is it as user friendly as the Uniden 245XLT or Pro series from Radio Shack? By that I mean, can I listen to bank 1, 3, 5, 7, but lock out the rest? Can I scan all 2000 in a row or is it set up in A and B banks like the Pro 94, where you can only scan 500 at a time? I checked out the Icom R10 and it was a completely different animal. Not at all what I was used to with the Uniden and RS Pro series scanners. I know the radio has many features, but it's nice to just reach over and hit one button in traffic and lock out the town you exited and activate another bank. If anyone can help me out with these few questions, I'd appreciate it I have a separate radio for trunking so I am not concerned about that end. I know the 2000 is conventional only and that is what I am interested in. Thanks!!!

Yes, John...Lisle will be close enough to hear Chicago. Search between 460.025 and 460.500 for all the action in Chicago.

You will definetly want to enter the Chicago TRS tactical system. Click on the link below and look for Chicago PD. It is very interesting to listen to.

http://n9jig.com/radio/radio.html

State Police is on an EDACS system and one to program in as well. 155.4750 is used for 'flash' messages. 154.2650 is mutual aid fire department.

From: n9mxt1
Topic: 297 Message: 297

Hello,
I did the Discriminator MOD for the PRO-2006 to decode the MDT traffic with the MDT MONITOR for windows software. It works GREAT!

Ommm my question is however when its hooked from the scanner to the sound card I can hear everything BLASTING out of my computer speakers. You can even hear the squelch hissing out the speakers even though the squelch isn't even open. I even turned the volume all the way down on the scanner and its still LOUD!! I had to turn the volume off on the computer just to be able to not hear the hissing and tones!!! Just wondering if their is something I can do to eliiminate the BLASTING outside the speakers? Like I said however everything is working perfectly besides that!

Please let me know...

From: n9mxt1
Topic: 300 Message: 300

Hey,
Just wondering what everyone is using for a mobile scanner antenna? I was using a Radio Shack mobile glass mounted antenna (Was told they aren't good!) so I just recently took it off that car, to replace it with a NMO truck-lip mount and 19" or so whip.

I still don't receive the greatest... and was wondering what people are using with good results?

Topic: 301 Message: 301

A good all around antenna I have used is a Maxrad Max-scan 1000 it covers 25-1000Mhz It is about 20" tall with a center load coil. Looks simular to a UHF gain antenna. It is a NMO motorola style mount. Ive had best luck with a 7/8" hole mount, but a good trunk lip mount with a decent ground works good too..

I don't know any frequencies off hand, but Police Depts covered
by Northwest Central Dispatch (Palatine, Elk Grove Village,
Buffalo Grove area) are using Motorola Astro digital.

Last information I heard, police agencies serviced by DuComm
will be APCO-25 Conventional by this time next year. No word
on whether encryption will be enabled.

So, you should definitely plan on a 785D and the digital board
to go with it.

325. Bolingbrook Freq.

Yahoo group: Chicago_Scanners
Date: 2002-11-08 22:47:01 UTC
From: Robyn
Topic: 325 Message: 325

Sorry for the cross post.... but i am looking for the bolingbrook freq. they resently changed and it seems i am getting them on 156.2100 but doesnt seem right too me. Can anyone help me out here.

Thanks so much
Robyn

326. Scanner / software question

Yahoo group: Chicago_Scanners
Date: 2002-11-22 00:36:24 UTC
From: DCPAQ2
Topic: 326 Message: 326

Does anyone know of any kind of software / hardware combination that can be installed into a laptop computer to monitor like a scanner does?

I have not heard of or seen anything that will install into a laptop and allow scanning like a scanner would do.

Any help or info on this would be greatly appreciated.

Also if it matters, I have a Sony Vaio FXA-49 Laptop.

Thanks

Doug

335. CTA Bus frequencies

Yahoo group: Chicago_Scanners
Date: 2003-06-19 18:56:35 UTC
From: chicago132000
Topic: 335 Message: 335

Does anyone know if CTA s using new frequencies for their bus communications?? The freqs I have don't seem to work anymore.

The ones I have are:

453.2250 Bus calling & emergency. All I ever hear on here is people keying their mikes and not saying anything.

453.2750 & 453.3250 are listed as pager freqs, but 453.3250 is dead.

453.3750, 453.4250 & 453.525 are listed for garages, but all I get are the paging tones like the pager freqs. The others are totally silent. (Except the supervisor freq 470.5375 which is till used, the other supervisor freq. 470.6375 appears dead too)

Thank

If any Chicago Fire buff is interested, there's a Chicago Fire Department blue duty shirt for sale on E-Bay (Item#3909137041). It sounds like they have more than one size (2 are mentioned). They're cheap at $21.99 each. I wrote the guy, & he stated, anyone that mentions they're a firefighter, or firefighter buff, will get you 10% off.

393. Police Codes

Yahoo group: Chicago_Scanners
Date: 2005-08-24 01:30:04 UTC
From: Don
Topic: 393 Message: 393

FEMA pushing out law enforcement radio codes

(Washington, DC-NBC) Aug. 22, 2005 - In Washington, DC, if a police officer says 10-50, he or she is talking about a car accident. Over the border in Montgomery County, Maryland that same code means an officer needs help.

And that's why the federal government says its time to adopt a common language, plain English.

Radio codes are a second language in public safety circles, but the Federal Emergency Management agency says there's no room for misunderstanding in a national emergency.

So it's ordering police and other departments to phase out their code-speak and start talking in plain English by next September, or risk losing millions of dollars in emergency preparedness money.

Gil Jamieson is director of what's known as the National Incident Management System, or NIMS. He says there's been some resistance from police, "Clearly, ten codes are something which are part and parcel to law enforcement."

But he says the ability to communicate is more important, "The notion of moving to plain English is to say what we mean so there is that common understanding."

Chief Terrance Gainer of the US Capitol Police says, "To use money as a hammer to throw out what we've been using for years and years and has worked well for us, that's not such a good idea without a lot more conversation."

Chief Gainer says the codes have a long history for good reason, "It is a concise language, it's very clear, it takes up very little air space and there are some security issues about it."

Many fire departments went to plain English years ago. Some say changing the language public safety officers speak is easier said than done.

400. Meeting Women Online?

Yahoo group: Chicago_Scanners
Date: 2006-01-17 15:05:53 UTC
From: kendra.mackey9405@urrbfd.com
Topic: 400 Message: 400

Well even if you're not looking for love, and just a bit of fun thought I'd give you all this tip. So you can stay away from all the BS fake profiles places. This is what I've been using http://www.followmeherenow.info/novq . No joke, I've messaged about 5 women close to me and already 3 have responded, and I am already organising to meet up with one. Not bad for a guy who hasn't had a date in a while, lol! :)

401. New trunking group formed

Yahoo group: Chicago_Scanners
Date: 2006-01-19 01:45:16 UTC
From: Chuck
Topic: 401 Message: 401

There seems to be some rifts going on with the original trunking group over on TrunkCom on QTH.NET, so a new group has been formed for discussion of trunking topics on YahooGroups at http://groups.yahoo.com/group/TrunkComm. This new list is for discussion of all trunking topics as they relate to scanning.

403. Looking for you'r perfect match?

Met my fiance here! hehe. Thought I should share it with any other guys who are worried about ending up alone like I was. Check it out http://www.connectherenow.info/iaxq

404. Meeting Women Online?

Yahoo group: Chicago_Scanners
Date: 2006-01-22 14:25:05 UTC
From: georgette-murdock661@howudowinn.com
Topic: 400 Message: 404

Just thought I should pass on my knowledge to all you guys (and gals) on here. I know just like heaps of other men I am pretty shy when it comes to going up to someone. I've tried a few different places (clubs, bars, etc) but never seem to have too much luck. Anyway, a few weeks ago I joined up to http://www.dontwaitjoinnow.info/suhg and I have to say I am already getting excited. I was beginning to think I'd end up being alone for ever, but already been talking to a few interested ladies on there. Anyway, if you're like me it comes highly recommended!

405. Looking for you'r perfect match?

From: brenda-warnes457@killerinstinctz.com
Topic: 409 Message: 409

Wow, what a blast, what a trip actually. was kind of getting bored with the net, was gonna get rid of my broadband and go back to 56k because i hardly used the thing, and really, I didn't do anything much to need it. But last weekend i found this crazy pickup thing, with webcmeras and all the gear. used to waste my time trying to find gals on yahoo, but this place is like 100X easier. this is the spot that made me decide to stick with my net for a bit longer http://www.alwaysopenforyou.info/ddoa . have fun, i did ;)

410. Looking for west suburban police frequencies

Yahoo group: Chicago_Scanners
Date: 2006-03-10 14:40:10 UTC
From: Dale L Johnson
Topic: 410 Message: 410

Does anyone know the new frequency or frequencies for towns around Riverside, Brookfield, LaGrange etc. They changes freqs and switched from VHF to UHF. The latest 'Police Call' book still lists the old freqs.

418. Human-buttons

Yahoo group: Chicago_Scanners
Date: 2006-04-24 10:52:08 UTC
From: PCR254@un.unhcr.biz
Topic: 418 Message: 418

This campaign is about Human beings, Democracy, UNHCR, Refugees, The Iraqis, Islam, Kurds, Human rights, Respect, Money, Donations, Angelina Jolie, Pavarotti, Giorgio Armani, Donors, Peace, History, Campaigns and about you if you care about these words.

Hi there,

I am SAM, an Iraqi refugee living in Lebanon at the moment; I have spent the last 10 years of my life as a refugee registered with the UNHCR in Beirut. The last 4 years, I have spent as an activist for peace and human rights (especially refugees and asylum seekers) on the Internet; I'm also books author and ebooks publisher. I have launched many campaigns to improve our situation as refugees in Lebanon and hopefully bring more understanding to our problems worldwide. I helped make many changes and improvements at the UNHCR office in Beirut; I used the Internet as the field for my activities (you can read more about that in my free ebook 'MY CAMPAIGNS'). All my ebooks are free and could be download from my sites.

This is my newest campaign, it's about the illegal and humiliating actions of the UNHCR, who using photos of refugees as banners and human-buttons to collect money. This is an abuse of the dignity and humanity of the refugees and must stop immediately and a clear public apology present by The United Nations High Commissioner for Refugees. My friends, I am talking about the pictures you can see here:
http://lebanon1.250free.com/human-buttons.htm

Also you can read my new campaign 'Urgent, we need smile' here:
http://unhcrlebanon.s4u.org/email_me.htm

For more info about UNHCR and life of refugees you can read my free ebooks. I invite you as fellow humans and members of the world community to support my campaign by reading my article on my site and see the human-buttons. The campaign is to support and improve the UNHCR http://www.unhcr.org especially after the last scandals in the UN and UNHCR, just for example: http://www.mizzima.com/archives/news-in-2005/news-in-april/12-April05-22.htm

"We make demonstration and fast because the UNHCR office in Cairo did nothing for our problem..." http://news.bbc.co.uk/2/hi/africa/4440730.stm

Together we will build better world.

You could reach me fast via this form: http://cybcity.com/unhcrlebanon/email_me.htm
and if you like to know more about me, you can google for my name 'osam altaee'.

Thanks

423. Secrets to Business Success on the Internet

Yahoo group: Chicago_Scanners
Date: 2006-06-15 10:56:54 UTC
From: Mido Roleda
Topic: 423 Message: 423

Create a business or build on a business venture with a vision of success in mind. Your vision is an investment! Be adaptable, open-minded, and diversify your efforts. This will lead to successful growth and long-term security. Take time to explore tools and do whatever detective work is necessary; make it a habit that continues over the years. Give yourself all of the advantages possible and you will reach your highest goals.

424. How To Master The Art Of Making Money Online

Yahoo group: Chicago_Scanners
Date: 2006-06-18 03:19:12 UTC
From: Mido Roleda
Topic: 424 Message: 424

Yeah!! A home business, that is, where I can easily make the extra money, a second income or even create a full time job. Is that what most people think when they start looking for a job or business online? Guess what, they are not even wrong. The only problem is, it takes a lot of work to find out how to actually achieve the easy money.

So since the title says how to master the art of making money online let us look at the main issues you need to focus on.

425. How To Generate Unique Business Ideas That Make Money?

Yahoo group: Chicago_Scanners
Date: 2006-06-30 15:59:47 UTC
From: Mido Roleda
Topic: 425 Message: 425

Every money making opportunity that you see boils down to one common thing: idea. As you know the best ideas pay. The most creative ideas pay.
The best thing about ideas is it is free and everybody has the capability to think of ideas.

In order to be creative and innovative about ideas, you have to have knowledge. Knowledge is important. You need to know thousands of things to be creative.

Here are the steps that you can take to come up with profitable innovative ideas:

http://money-investment-guide.blogspot.com/2006/06/how-to-generate-unique-business-ideas.html

428. The Mathematical Formula For Making Money

Yahoo group: Chicago_Scanners
Date: 2006-07-21 10:03:31 UTC
From: Mido Roleda
Topic: 428 Message: 428

No matter what markets you serve; what products you sell; or what marketing tools you use, in business there's one truth you cannot escape.
Embrace this truth and profits will flood your business.

Disregard this truth and financial-cancer will eat you.

What is this truth?

Quite simply, the size and speed of your entrepreneurial success is directly proportional to your understanding of The Mathematical Formula For Making Money.

To read the full article, please visit Guide to Investing Your Money Wisely.

430. The Road to Riches

Yahoo group: Chicago_Scanners
Date: 2006-07-31 12:07:59 UTC
From: Mido Roleda
Topic: 430 Message: 430

The internet has completely changed the business world. It has changed the whole concept of how to be successful in a home business. It has also provided the opportunity for many to give up the 9 to 5 world and seek their dream on the internet. Some have made this transition seem easy and others continue to struggle.
Have you been thinking about making this change? Do you have what it takes to make this a successful move? Let's take a look at a few of the things that ultimately decide who makes the grade and who goes down with the ship.

432. A million dollars in 4 months?

Yahoo group: Chicago_Scanners
Date: 2006-08-07 06:19:06 UTC
From: Mido Roleda
Topic: 432 Message: 432

As with so many things, the ideas that really 'work' on the Internet are often the most simple. In fact, they are often the ideas that most people would just discard as being too ridiculous to even try (this doesn't just apply to the Internet of course - many great inventors/entrepreneurs have been laughed at in the past only to have the last laugh themselves...).
Anyway, I have been following the story of one such idea over the past couple of months and although I am sure many of you will already be familiar with it, I wanted to share some thoughts with you.

To read the full article, please visit Online Business Tips, Tricks & Techniques.

433. EUROPEAN AMPLITUDE MODULATION AMATEUR RADIO GROUP

Yahoo group: Chicago_Scanners
Date: 2006-09-08 17:27:47 UTC
From: gvastianos
Topic: 433 Message: 433

EUROPEAN AMPLITUDE MODULATION AMATEUR RADIO GROUP

NEW YAHOO GROUP: http://groups.yahoo.com/group/eamarg/

This is a group for licenced amateur radio operators (HAMs) who are interested in the AMPLITUDE MODULATION (AM) mode of communications. The group exists to promote the AM operation in the HAM bands and provide information about operating events and technical matters.

EAMARG encourages regional AM activity insuring there is AM available somewhere on the amateur bands. Based on the fact that the majority of the AM calling frequencies in USA belong outside the european HF bandplans... one of the EAMARG main goals is to help in the establishment of AM calling frequencies that will be compatible with the HF bandplans of the european countries.

EAMARG future plans including the sponsorship of operating events and contests that will promote the use of Amplitude Modulation.

In order to join this group you must be a licenced radio amateur.

434. Looking For Bus Freq PL Info

Yahoo group: Chicago_Scanners
Date: 2006-10-05 05:28:31 UTC
From: David
Topic: 434 Message: 434

Hey Guys,

Anyone by chance know (or know where to look) for the input PL/DPL tones for these services:

Septran, Inc
854.4625 (Output)

Durham School Services
860.5375 (Output)

Thanks, any and all help would be greatly appreciated!

435. RE: [Chicago_Scanners] Looking For Bus Freq PL Info

Yahoo group: Chicago_Scanners
Date: 2006-10-05 05:54:29 UTC
From: Don KA9QJG
Topic: 434 Message: 435

David the Input would be 45 Mhz Lower then the output, If You were close and had a Scanner or a Receiver that could display the PL DCS You could get it.

Happy Scanning

Don KA9QJG

436. Re: Looking For Bus Freq PL Info

Yahoo group: Chicago_Scanners
Date: 2006-10-05 22:48:18 UTC
From: David
Topic: 434 Message: 436

Don,

Thanks for the info - I got the inputs down, is there any computer program that you know of that would decode DPL (I have a scanner with a disc tap). I have tried Wintone for decoding standard PL, however for some reason the display keeps jumping around and will not stabilize on a single tone (even with using a scanner with a disc tap).

Also, I noticed in my programming software that the selection for DPL has two values for each code, such as D165I and D165N. Does the I and N represent different DPL codes?
Thanks again!!
David N9VJF

All the girls out there are totally lying when they tell you that size does not matter. Want proof?
I am telling you this because it is the honest truth, look I should know, they say that it is all in the way you use it, not how big it is, well I got news for you all, that is pure lies.
I know from personal experience, I will tell you about a secret that Joey has made me promise to never ever tell anyone, but since he has not called me in three weeks after standing me up, I am going to break the promise and tell you how he went from having a tiny wang and in 4 months he is now about nine in and get this, it is still getting bigger. He has been secretly taking grow stuff from this site http://www.auneo.net/wzss

Hey girlfriend, its been a while since we last talked, i remember when you came and visited we had they threesome while camping, it was sooo good, then we laughed at jeff as he was saying size doesn?t matter lol, damn men don?t know what they are talking about, anyway just wanted to let you know that he ordered some enlargement pills online from a website called http://www.bloak.net/vapo and now he is 3 inches bigger!!.. maybe you should look into this for Bruce since he is only average size.
Ok babe, take care and lets do it again sometime, will be more fun if the males are bigger :)
Love Jane.

This is just awesome guys! I finally got around to graduatin and I didn't even have to turn up a single day this time around to get my final credit points. Now I am fully qualified in a BA and on the hunt for a new job! I'll let you guys know how I do, but just thought I'd mention this now since they helped me out. If any of u interested in getting a BA or something similar without having to go through all the hassle they put you through in US institutions give these guys a call 770 621-2634 . They got me through in around a month.

Took me just 2 weeks to get my accredited Masters in this course. Already in line for an interview on monday to hopefully get a better position within the place I work at. Didn't even have to buy and books, go to any classes, or take any exams. Honestly, if anyone here is looking to move up in this world and get something like I did I suggest you use the same people I did; here is the details 770-621-2634

WHAT A GREAT IDEA!
We provide a concept that will allow anyone with sufficient work experience to obtain a fully verifiable University Degree.
Think of it, within four to six weeks, you too could be a college graduate.
Many people share the same frustration, they are all doing the work of the person that has the degree and the person that has the degree is getting all the money.
Don't you think that it is time you were paid fair compensation for the level of work you are already doing?
This is your chance to finally make the right move and receive your due benefits.

600. The Secret Of Making Money In The Stock Market

Yahoo group: Chicago_Scanners
Date: 2007-10-17 17:25:04 UTC
From: cane exuye
Topic: 600 Message: 600

You may have wondered if there are people out there who consistently make money from the stock market. And yes, there are people out there who are consistently making money from the stock market because if they were not making money from market they would not be there and the markets would not be there too. These people are no smarter than you. They do not work any harder and neither are they lucky than you.

But, unlike you, they never seem to worry about having money because they know one or two secrets of making money in the stock market. You see most people miss the big idea here. They think it takes a lot of money to make a lot of money. But that is not how it is done. The idea is to make pennies consistently and to use them to build vast personal fortunes. The stock market is a proven wealth builder and can and should benefit all participants. It is only fair that each one of us should be entitled to a piece of the action.

602. Magic Bullet To Retirement

Yahoo group: Chicago_Scanners
Date: 2007-10-19 06:29:27 UTC
From: cane exuye
Topic: 602 Message: 602

Everyone is looking for that magic bullet that will allow them to retire rich or at least comfortable. They want to be able to do what the TV ads show - vacationing in Fiji, fly fishing in Vermont, etc, etc. It seems so easy on TV.

A pretty financial analyst from some big company shows the prospect how it is done. The next part of the trick is getting it done and that aint easy. It usually means a change because the potential retiree must take part of the cash now being spent on present life style and put it away not to be spent until retirement becomes a reality. If the couple shown in the ad do it they will be glad they did. Sacrificing some current pleasantries will have been worth it. The $2,000, $3,000, $5,000 trip today could be worth twice that amount or more at age 65 if the worker now is lucky enough to have a good broker or planner one who will not allow loss of principal during subsequent bear markets.

604. Investing Secrets of the Wealthy

Yahoo group: Chicago_Scanners
Date: 2007-10-20 09:42:27 UTC
From: cane exuye
Topic: 604 Message: 604

My favourite subject. Investment. Investing in your own ecommerce business is the best, most time efficient way to make money. But to grow real wealth you need to diversify into other investments as well. Your ecommerce business (or other business / high paying job) provides the cash for investing. It is the interest earned of those investments however that pays for your luxury lifestyle.

605. Why the Rich Keep Getting Richer

Yahoo group: Chicago_Scanners
Date: 2007-10-21 06:46:49 UTC
From: cane exuye
Topic: 605 Message: 605

Rich people: fortunate, lucky, selfish, and arrogant?
Or highly educated, caring, brilliant individuals?
Becoming rich isnt hard, but it does require a bit of
time and knowledge. Having time to get rich, educating
oneself, and buying assets are the three key factors
in attaining untold wealth.

Rich people usually either have or make time to get
rich. Most people that now own huge mansions, have
wonderful riches, and drive the nicest cars usually
begin taking the road to riches in their spare time.
One plan, the most common, is to work at a low-risk,
steady job until one has enough money to invest in
something that will feed one for the rest of their
life. But before one can invest in anything, one first
has to educate oneself.

606. Home Based Businesses - Getting Out Of The Rat-Race Forever

Yahoo group: Chicago_Scanners
Date: 2007-10-22 03:34:42 UTC
From: cane exuye
Topic: 606 Message: 606

In early 2006 my wife Kath was looking for free finance ebooks on the web. We were both disgruntled about the pay and long dangerous hours in my contracting job, so she decided to do something about it. She came across an ebook from Jamie McIntyre at 21st Century Academy called "What I Didn't Learn at School But Wish I Had". After reading the ebook Kath was so impressed that she ordered the free DVD with the same title.

When we both watched the DVD we were convinced that this was the right system for us, so we ordered the 21st Century Homestudy Program. This was tough going, because we were down to our last $500 after a renovation on the trashed former drug baron's house across the road. We thought that the renovation road was the route to wealth and thats why we were doing it. Previously, we had been in Network Marketing for many years, but could not seem to breakthrough to the levels we needed to have a decent lifestyle. When we ordered the program, our one thought was, if this doesnt work, its getting returned!

607. To Enjoy Your Retirement Years And Have Enough Money You Need To Plan Now

Yahoo group: Chicago_Scanners
Date: 2007-10-23 10:52:48 UTC
From: cane exuye
Topic: 607 Message: 607

It is never too late or too early to start investing for the future. Of course there will be a lot of advantages if you start investing for the future at an early stage. Note that if you start investing while you are still very young, time could work to your advantage. The value of money and properties could go higher with time, thus in most instances, the longer you keep the investment, the greater will be your gain.

Contrary to some myth that you will need a fairly large sum of money to start investing, you could actually start small. If you were financially hard up that every dollar would count to tide you over to the next payday, with more reason for you to save and invest your money into some profitable ventures. Why would you save when you can hardly afford to buy the basic necessities in life?

608. How To Become A Millionaire In 8 Years Or Less

Yahoo group: Chicago_Scanners
Date: 2007-10-24 20:41:35 UTC
From: cane exuye
Topic: 608 Message: 608

Contrary to most people's experiences, the FOREX market is not a voracious "black hole" that seeks to swallow up your hard earned money. The FOREX market is simply a market like any other market, whether you are selling bushels of wheat, fresh fish, or currencies. It has no agenda to deprive you of your cash. It's just a harmless ol' teddy bear that needs to be cuddled and loved. And, if you learn to love it, it will love you back, and in very generous and tangible ways. On the other hand, if you are determined to think of it as your enemy, then you have no choice but to defeat it; and, of course, it will fight back. As any professor of quantum physics or spiritual leader will tell you, how you perceive a thing will determine how that thing will respond, it's a principle of cosmic proportion.

942. Seeking to Employ Experienced Scanner Operators and Enthusiasts

Yahoo group: Chicago_Scanners
Date: 2012-01-17 19:25:42 UTC
From: Steve Rothenberg
Topic: 942 Message: 942

Seeking to employ experienced scanner operators and enthusiasts. Duties will include:
☐ Listening to recorded and real-time transmissions
☐ Extracting relevant information
☐ Using property research tools
☐ Operating within a Filemaker database

We are looking for the following qualifications:
☐ Detail-oriented and organized.
☐ Intermediate level computer skills.
☐ Self-directed and able to work alone.
☐ At least three years experience with public safety dispatches.
☐ DSL or cable connection greater than 1.5 Mbps down.

```
If interested contact: Vince@...

Thank you and have a good day.
```
